CROWDS VISIT AUTO SHOW ON DOLLAR DAY

Stores Also Thronged As Shoppers Invade City.

BARGAINS GALORE

Motorism Offers 29 Models in Three-day Display.

Thousands of out-of-town visitors thronged the business district today for the semi-annual Dollar Day sale under auspices of the Retail Merchants' division of the Chamber of Commerce and the opening of the three-day automobile show of the East Liverpool Dealers' club in the Winland building, Minerva street.

Last night's snow, the heaviest of the season, failed to affect to any marked extent the crowds.

The auto show was officially opened at 11 o'clock.

Free Parking in City.
The visitors came by automobile, street car, motor busses and by trains. For the accommodation of those who drove their own cars, merchants distributed free parking tags.

Stores were stocked with bargains.

Twenty-nine manufacturers of pleasure cars, represented by 15 dealers, have displays at the automobile show. Two tire dealers and one firm selling radios are also represented.

The interior of the exhibit has been decorated in a color scheme of orange and green, arranged by members of the East Liverpool Displaymen's club. Ferns, palms and other potted plants also were used in the effects.

Two Orchestras at Show.
Glistening black, bright green, flaming scarlet and dark blue sedans, coupes, town cars, phaetons and roadsters of the standard and deluxe models are displayed. Almost as many women as men were among those who crowded the exhibition hall this afternoon.

The show will be open from 11 a. m. to 10 p. m. today, tomorrow and Saturday.

Two orchestras will be in charge of music at night. One orchestra will be in the quarters of the Supply Motors Sales and the other in the Victory Motors Sales, which have been connected for the show.

Charles A. Payne Speaks at Noon Luncheon.

A travelogue in which he described the beauties of Yellowstone National Park was given by Dr. Charles A. Payne, globe-trotter, Milwaukee, before 50 members of the Kiwanis club and their guests in the grill room of the Travelers' hotel at noon today.

Payne used 100 stereoscopic slides to illustrate his talk.

Announcement of a divisional meeting which will be held at Toronto, Tuesday night, March 5 was made.

H. B. Keys presided at the luncheon.

PARALYZED MAN IN HERO ROLE

NEW YORK, Feb. 21.—"I don't know how I did it. It must have been a miracle."

Thus did Frank Doyle, 35, today explain how he was temporarily able to conquer paralysis of the legs, arise from his bed where he had been imprisoned for weeks, struggle to the kitchen with the aid of a chair and make a valiant, but heroic effort to beat out flames which had enveloped his mother, Mrs. Sceny Doyle, 68.

ANOTHER WAR LOOMS IN CHINA
WASHINGTON, Feb. 21.—Advises to the state department today indicated a widespread anti-nationalist movement in the Shantung peninsula in China, in which large numbers of former republican troops and brigands engaged in effecting an encircling movement around the Nationalist forces.

EDITOR WHITE UPSETS STANFORD
PALO ALTO, Cal., Feb. 21.—Stanford university students and faculty were mulling over William Allen White's remarks here today with mingled feelings.

Addressing the assembly, the Emporia, Kan., editor stated the Coolidge leadership "has been honest, if dumb and dull."

White asserted that the United States could expect even greater prestige, prosperity and happiness under the leadership of Herbert Hoover.

Constable and Another Officer Trap William Young.

FOOT IS FROZEN; BEGS FOR DEATH
James Walton, "Brains" Of Plot, Still at Large.

COLUMBUS, O., Feb. 21.—With the capture of William Young, 40, Marietta convicted murderer, four of the five convicts who escaped early Tuesday from the Ohio state penitentiary were back in the institution today, all in solitary confinement.

Young was captured near Shadaville about 8 o'clock last night by Constable John Guy and another officer. When taken into custody, the prisoner's foot was frozen and he was in such a miserable condition that he begged the officer to shoot him. He said, "Just put a bullet through my head and do me a favor."

The arrest of Young leaves only James Walton, Cleveland robber, who is believed to have been the "brains" of the plot in the jail delivery, at large.

Ice Cream Only Food.
Pat McDermott, "life-terminer" and "trigger man" in the Don Mellett assassination and Mike Jacko, Cleveland murderer, were taken by authorities the same night they escaped. Joe Russo, Cleveland robber, was captured early yesterday near the same spot where the Marietta murderer was found.

Young, when taken into custody, refused to talk, but when police told him that Russo had been seized, he told how he and Russo had left the others as soon as they dropped over the walls. He said they had "laid low" all day Tuesday and at night broke into the store at Hartman farm whence they were driven by the revolver shots of the proprietor.

The convict told how he had hid out all day yesterday and then tried to move on last night but walked into the police net.

He related he had only ice cream to eat since he had "flown the coop" early Tuesday. The man blamed "bad breaks" for his capture.

Suspect in New Philadelphia.
Young told the officers he had attempted to stop a car on the Columbus-Chillicothe highway, but that the occupant brushed him off.

Young, who is a life-terminer, was wearing the prison garb. He had on (Continued On Page Six, Col. Two)

DRIVER HURT AS HIS AUTO PLUNGES
F. E. Moncrief, 45, Wellsville mill worker, sustained scalp lacerations, when his automobile plunged over a 75-foot embankment in Washington street, Newell, near the Edwin M. Knowles home, at 11:30 o'clock last night.

The accident occurred in almost the same manner and in the same place as the crash in which George Green, Baum street, lost his life last summer. Moncrief's car skidded in the street as he attempted to turn at the sharp curve.

The car overturned and came to a stop in an upright position at the foot of the embankment. Crown on Newell street car found Moncrief a few minutes after the accident and took him to the City hospital. He was discharged from the hospital after his injuries were dressed.

LINDY ARRIVES IN INDIANAPOLIS
INDIANAPOLIS, Ind., Feb. 21.—Flying alone, Colonel Charles A. Lindbergh arrived at the Indianapolis airport at 9:55 a. m. today on an inspection flight of landing fields selected for the proposed Transcontinental Air Lines, Inc.

The lone eagle remained here only a short time. His Curtiss-Falcon airplane was serviced and ready for him to continue his trip within a half an hour. The famous flier did not reveal his destination but it was presumed to be St. Louis. He came here from Columbus, O.

WHOOPEE AGE GROWS YOUNGER
NEW YORK, Feb. 21.—The whoopee code grows younger. A boy, three years old, and his baby girl-friend, 4, were pronounced intoxicated by a hospital physician and sent to the alcoholic ward of Bellevue hospital for treatment.

A patrolman found the babies staggering along an upper East Side street. The officer sent for in ambulance.

A frightened mother who had left the boy with a neighbor reclaimed both children. She could not explain where they obtained liquor.

TROLLEY LINES HIT AS KING WINTER REIGNS

Six-inch Snowfall Here Trails Cold Wave.

STREETS CLEANED

Chilly Blast Sweeps From Louisiana to Maine.

Old man winter, blowing on his finger tips over practically the entire region east of the Rocky mountains, gripped East Liverpool today.

Street car and automobile transportation were hit by a six-inch snowfall, the heaviest of the season in the upper Ohio valley.

Trolley cars on the main line between Wellsville and East Liverpool were delayed during the early morning, while schedules on hilltop lines were also disrupted.

Two snow sweepers from the Pennsylvania avenue car barns were pressed into service to clear the tracks.

Street Commissioner Martin McLaughlin and his force cleared cross walks in the business district and gutters. All city trucks were pressed into the work of removing the snow from the business zone.

No Accidents Reported.
Officials of the Ohio Bell Telephone company said few telephone lines were out of commission. There was no interruption in electric light and power service.

Schedules were being maintained by Cleveland & Pittsburgh division passenger trains. Interurban cars to Salem, Steubenville and Beaver were operated on schedule.

No accidents were reported.

A cold wave swept from the Louisiana coast within the last 24 hours and moved northeastward as far as Maine.

It carried a blanket of snow on its back which covered all of Southern New England, all of New York state, except the northeastern portion, spread over Pennsylvania, West Virginia and the mountain sections of (Continued On Page Six, Col. Two)

STEUBENVILLE COURT BILL UP
COLUMBUS, O., Feb. 21.—The house codes committee today was at work drawing up a substitute bill providing for a municipal court at Steubenville. Members of the committee said a vote on the question of recommending passage of the measure will not be taken by the committee before next Tuesday.

It was understood that the substitute measure will require that a candidate for the municipal judgeship must have practiced law at Steubenville six years before he, or she, will be eligible for the office.

GEORGE BRANT DIES IN LISBON
LISBON, O., Feb. 21.—George Brant, 66, manager of the Excelsior Fire Clay company, died last night in the West Penn hospital, Pittsburgh, after two weeks' illness.

Mr. Brant, who was born in New Florence, Westmoreland county, Pa., had lived in Lisbon for 17 years. He was formerly cashier of the People's State bank. He was a member of New Lisbon lodge, No. 65, F. & A. Masons, and the United Presbyterian church.

He leaves his widow, Mrs. Anna Brant, and an adopted daughter, Betty Jane. He is also survived by several brothers and sisters.

Funeral services will be held Saturday afternoon at 2 o'clock in the home of a brother, John Brant, 1710 Montier street, Pittsburgh.

CHICAGO MAN KILLS PARTNER
CHICAGO, Feb. 21.—Michael Ragaisches 35, part owner of a "soft drink" parlor, today was shot and killed by his partner, Walter Lewdickis, 43. The latter who rooms at the Ragaisches home, said Ragaisches came home intoxicated and threatened his wife and child with a butcher knife. Lewdickis said he fired to protect the crazed man's wife and child.

Keith McCutcheon, 13, son of Dr. and Mrs. M. D. McCutcheon, Thompson avenue, and an eighth grade pupil at the Central school, will attend the Boy Scout camp at Brokenhead, near Liverpool, England, July 30-August 13. Young McCutcheon, holder of 32 merit badges, is a life Scout at the present and hopes to attain the rank of Eagle Scout, the highest honor, before his trip abroad. Seventy-five Scouts from Ohio, West Virginia and Kentucky will attend the camp.

WOMAN SACRIFICES LIFE.
Mrs. Mary Smeltzer Mangold lost her life at Carrolltown with her five children whom she tried unsuccessfully to rescue. At Hillsboro, Mrs. Emma E. Berkey, 27 and her three children, the oldest four years of age, died when an overturned stove turned their two-room frame house into an inferno of flames. In both instances the father escaped.

The dead: At Carrolltown, Pa.: Mrs. Mary Smeltzer Mangold, Paul Mangold, 6, Mary Frances Mangold, 4, May Grace Mangold, 3, Regis Mangold, 2, Bobby Mangold, 8 months. At Hillsboro, Pa.: Mrs. Emma E. Berkey, 27, Mervin Berkey, 4, Merna Berkey, 3, Melroy Berkey, 8 months.

One Father Burned.
Leo Mangold, husband and father of the Carrolltown victims, was aroused from his sleep by men en route to work and escaped before the house was destroyed. The mother ran to the second floor room where the children slept and died in an effort to rescue them.

Zenas Berkey, 28, husband and father of the Hillsboro victims, was burned in an effort to save his family, but will recover. He ran for help, which arrived too late to save the four.

Boy, 10, Saves Four From Fire.
TOLEDO, O., Feb. 21.—William Vivian, 10, a chubby-faced boy, became a hero today when he saved four persons from possible death by burning. Awakened in his home by smoke, Vivian crawled from his bed and aroused his parents and two other adults. The flames were quickly extinguished by firemen.

JURY CONVICTS GEORGE MCCAIVE
George McCaive, Salem, indicted by the January grand jury, for breaking and entering in connection with the looting of two Salem warehouses, was found guilty by a jury of six men and six women in common pleas court, Lisbon, at 5 o'clock last night. Sentence has not been passed.

This is the second time that McCaive has been tried, the jury having disagreed in his first trial. His second trial started Monday.

McCaive was defended by Attorney H. L. McCarthy, Salem, while Prosecuting Attorney John Haukecht, East Palestine, represented the state.

BODY SEVERED, LIVES 20 MINUTES
HAMILTON, O., Feb. 27.—His body severed above the hips when he was thrown from a switch engine into the path of another locomotive, Valentine Taylor, 36, father of two children, lived 20 minutes after the accident.

Fellow railroad workers recalled today that this is the second time in a number of years that an employee, whose body has been virtually cut in two, has lived a short while.

Taylor was a crossing watchman here.

ASA KEYES GETS PRISON SENTENCE
LOS ANGELES, Cal., Feb. 21.—Asa Keyes, former district attorney of Los Angeles county and prominent in politics in southern California for years, today was getting his affairs in shape in anticipation of imprisonment at San Quentin.

The former official and Edward Rosenberg were sentenced yesterday to serve from one to fourteen years in prison. A motion for a new trial was denied.

Sentencing of Ben Getzoff, a third defendant, was postponed for two weeks after he had filed an application for probation.

The trio was found guilty of bribery and conspiracy in connection with the collapse of the Julian oil fraud trials.

State Capitol Levy Bill Awaits Passage

Measure Provides for Tax of Five Cents on Each \$100 Property Valuation.

CHESTER, W. Va., Feb. 21.—A bill providing for a direct levy of five cents on each \$100 of property valuation for construction of the main capitol building was advanced to third reading yesterday in the house of delegates at Charleston.

The fight against the proposal was led by Delegate E. Leslie Long, of Harrison county, and James T. Foner, of Tyler county. Long sought unsuccessfully to have the measure retain its place on the calendar until the house taxation and finance committee make sufficient reductions in

the budget bill to provide the money for the building.

Foner appealed to the house on behalf of the rural sections to find some other means of raising the money to complete the capitol. He declared he favored building the main unit, but said the time had come to relieve property of confiscatory taxes and place them where they belong.

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

County's Motor Population

There is one automobile for every four persons in Columbiana county.

This is the interesting information furnished by Secretary of State Clarence J. Brown, the head of the Ohio department of motor vehicles, as the East Liverpool Dealers' club opens its first annual three-day automobile show.

Based on the license fees, which aggregate more than \$143,000 in a year, and all of this sum, as well as the gasoline taxes paid by the motorist, goes into the maintenance and repair of streets and rural highways, 21,234 of the state's 1,711,926 motor vehicles are registered in Columbiana county. And 4,763 of these automobiles are owned in East Liverpool.

These figures indicate the rapid growth of the motor car. Not many years ago comparatively few automobiles were sold in the Ceramic City. Today 18 dealers, representing 29 cars, have displays of 1929 models in the automobile show, indicating that East Liverpool is a fertile field for business.

And the statistics also drive home the fact that the automobile industry, not to mention it as a factor in booming trade in the country's mills and what it means to the oil and gasoline producers as well as dealers in accessories, etc., plays no minor role in the nation's prosperity.

Safety of Life at Sea

So unusual has been the number of storms the last fall and present winter and so marked has been their severity, with consequent distress to shipping, that newspaper readers should be interested in the legislation urged upon congress by United States Commissioner Francis A. O'Neill, in summing up his report following the very comprehensive investigation made by him into the causes which led to the Vestris disaster with its toll of 111 lives.

Emphasizing the apparent lack of proper steamship regulation, the commissioner makes fourteen recommendations for constructive action which, according to the belief expressed by him, will go far in the prevention of recurrence of the tragedy of last November which shocked the world.

Commissioner O'Neill urges that vessels flying foreign flags should be given the same inspection in American ports as is given American vessels or such as they would be given in their home ports. All vessels touching American ports should be required to provide vest life-preservers which will keep the head of an unconscious person above the surface of the sea. The testing of lifeboats should include testing of their watertightness. All ocean-going steam and motor ships should be equipped with wireless and be compelled to maintain a continuous watch. All sea connections and pipes should be located so as to permit of inspection and repair, when necessary, at sea. All ship masters should be compelled to keep and furnish, when requested, accurate data on the stability of their vessels. The law governing limitation of liability of ship-owners, it is the commissioner's recommendation, should be so amended that owners would be barred from the benefit of this limitation where reasonably safety precautions, especially that of providing the ship with competent chief officers, have not been taken, and he holds that United States agencies, alike here and abroad, should have authority to examine officers before issuing licenses permitting them to touch at American ports.

The commissioner suggests that competent advice should be obtained by officials to prepare new regulations regarding approved designs and types of lifeboats, lifeboat-launching machinery, and life-preservers, and he recommends that the rules be changed to include all opening in the hulls of vessels.

Special stress is laid by Commissioner O'Neill on the need of close study by congress, or the approaching international conference on safety of life at sea, of the ancient rules of admiralty law relating to salvage and the limitation of liability on the part of owners, which yet obtain and are followed; that they may be changed in common justice to those who go to sea, holding that so long as these old laws are in force there will continue to be delays in sending out SOS calls due to the hope of the possible saving of salvage fees.

While the development in ship building in comparatively recent years has been marvelous, the laws relating to salvage and limitation of liability are moss-covered. There is no excuse, utterly no reason, why they should not be made to conform to the conditions and demands of today.

Sentimental Crickets

The songs of crickets, entomologists have said, are not love songs. But now comes J. Arthur Thompson, in his book, "The Minds of Animals," with this entertaining statement:

"When a group of singing male crickets are near a telephone, the female crickets will crowd around the telephone receiver in a distant location."

Precisely the way girls have been known to act when there was a bunch of fellows singing at the other end of a telephone wire.

Really, though, we must deprecate this extension of telephone service to sentimental insects. Why encourage them in their foolishness? It's bad enough to have human specimens cluttering up the wires the way they do, when serious-minded persons want to get an important message through.

Rocket-driven Sled

In Germany, a man who has been experimenting with rocket cars is reported to have invented and tested a sled which is propelled by firing rockets. It was equipped with 18 rockets which were fired in five series at intervals of one and one-half seconds. The sled shot along the frozen surface of Starrberger lake, near Munich, at an average rate of 235 miles an hour.

That seems a bit more thrilling than hooking on behind a wagon or an automobile. It may be more thrilling than tobogganing or coasting. Quite aside from thrills, however, Arctic and Anarctic explorers might find rocket-driven sleds useful.

HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., Feb. 21.—Negro history week, now an annual event, which has recently been held throughout the United States, presented noticeable advance in the position of the negro. The week, fostered by a negro organization with many branches throughout the country, is designed to bring to the Afro-American a realization of his background, an appreciation of the leaders of his kind and an understanding of his relation to other races.

The progress of education was especially noted. Such progress is accelerating, it would appear, from reports read at the various meetings held to observe the week. There are now some 15,000 students enrolled in negro colleges, a gain of eight-fold in approximately a decade. Speakers forecast that by 1930 the number will be at least 25,000.

These college students are at work in a total of 59 institutions of learning devoted wholly to negro education. Many colleges in the north admit negro as well as white students. All the principal northern universities do so. The college students of the negro race are divided about evenly between the all-colored and the interracial schools. Along with the teaching of racial history, during negro history week, has gone a college movement. Each year this is resulting in increased numbers of students.

It is a curious fact, in view of the circumstance that, general speaking, the negro stands in need of education as an immediate aid to improved earning power, that a majority of colored youths matriculating at colleges select purely cultural rather than professional courses. Knowledge of the classics, of foreign languages, philosophy, and some altogether recondite subjects have attracted a greater number of students than the law, medicine, and other professions which offer the graduate some guarantee of earning power. There are but two negro medical schools, two dental schools—a field which promises the graduate an almost immediate income—three law schools, and twelve theological seminaries.

What makes this the more remarkable is that while there is one white doctor to every 748 persons, the ratio is one negro doctor to every 2993. The pulpits of the white churches are over-crowded, especially in such denominations as the Methodist and Baptist churches, but there are more than a thousand empty negro pulpits. Many reasons exist for this situation and the apparent maladjustment can not be taken at face value. Many negroes have not yet learned to have confidence in doctor, of their own race. As to the ministry, there doubtless are far too many negro churches, some congregations forming in many locations when they should be consolidated. Now that the economic position of the negro is so much improved and he has become an owner of automobiles, it is expected that the situation will be remedied. Small congregations will consolidate and there will be larger churches with better paid ministers.

Even in teaching, there are many vacancies and this is a field in which it is hoped there will be an early movement toward all-negro teachers for all-negro schools. At present the colleges devoted exclusively to the education of the negro have 30 per cent white faculties. On negro colleges for men has an all white faculty.

Dr. R. R. Moton, principal of Tuskegee Institute, the all-negro school in Alabama which Booker T. Washington headed for so many years, believes in mixed faculties. He has pointed out that while race pride may suggest all-negro schools and all-negro faculties, such a fixed policy might result in too great a distinction between the races and a resulting severance. Racial antipathies might arise.

There are a very large number of primary and secondary schools, including vocational schools for negroes in the United States and these are annually growing in number. From the Julius Rosenwald fund alone no less than 475 negro educational establishments have been built. These include industrial educational shops and teachers' homes but are all devoted directly or indirectly to the education of the American negro.

The Rosenwald fund is now as well as most of the other funds established by private agencies. As the new generation benefiting by instruction in these endowed schools, which lean more heavily toward the vocational side, reaches college age, it is quite likely the balance will change and the preponderance of cultural courses now noted will give place to the professional lines of study. In addition to the Rosenwald Fund, there are the John F. Slater Fund, the Daniel H. Fund, the Anna T. Jeanes Fund, and the Phelps Stokes Fund all devoted to education of negroes.

Haskin, Director, Washington, D. C.

Q. What did Al Jolson do before he appeared at the Winter Garden? E. McL.

A. Al Jolson traveled with a circus for several years and then with Lew Dockstader's minstrels. He was in vaudeville before being engaged for the Winter Garden, New York, in 1911.

Q. At what age does the Bactrian camel begin to carry loads across the desert? N. G.

A. When a camel is three years old, it is taken into the caravan for a few trips to accustom it to desert travel. At four, it carries a small load, and at five can undertake a full share of work. However, loads carried by these huge animals do not exceed 400 to 500 pounds at most.

Q. What newspaper owned a fleet of sailing vessels to collect news? N. L.

A. The New York Herald and the New York Journal of Commerce were the first papers to own swift sailing yachts, which were used to obtain early information from incoming European vessels.

Q. Does an aviator find it warmer in the air in summer than in winter? E. H. G.

A. He would find it warmer in summer up to a height of 20,000 feet. Above that point he would notice very little difference in temperature.

Q. How does cigar consumption compare with cigarette use? K. J.

A. There are about fifteen cigarettes smoked to every cigar.

Q. How long has the capital letter U been used? E. E.

A. The letter U was originally a cursive or rounded form of the letter V and not distinguished from it. By the 10th century V came to be used by preference as the capital initial form. The two letters, however, were not given separately until about 1800.

Ritzy Rosalie

Rosalie is slightly peeved at Penelope who has just asked if she has been shopping in bargain basements. Of course, Penelope forgot that gingham is as prominent, if not more so, than silk in advance Spring fashions and that she was wearing some of the new checked gingham pajamas with pleats at the sides. Rosalie is wearing a "shorts" set with pleats at the side and fashioned of the loudest plaid gingham she could find. The throw and small pillow are part of a gingham set, including also a beach robe and triangle Rosalie acquired during her shopping tour.

NEW YORK Day By Day

By O. O. McIntyre.

NEW YORK, Feb. 21.—There are at least a dozen Mephistophelean worldlings in New York whose careers are devoted to marrying young and rich girls—who if they study their tabloids—should know better. The Romeos are middle-aged roués with the glamour of many successful conquests.

They are well educated and generally have a small allowance from an entailed estate, which they balloon into proportions of millions despite the army of creditors continually camping on the doorstep. They are gleaners along the society trail from Palm Beach to the Riviera and back again.

Most of them pose as artists or writers, but with small standing in either field. Outside of their technical proficiency in amatory affairs, they are proficient only in sartorial smartness, smoking cigarettes and punishing cocktails. And are a perfect pattern of the small town notion of a city slicker.

They have married four or five times before they reach 50, but are always ready for another paying romp to the altar. Their wives are invariably the vibrant and beautiful creatures upholstered in the select and fashionable finishing schools here and in Europe.

And the gallants with hand kissing manners make the average clean living young fellow trying to get a toe hold in the world appear as awkward as a clod hopper. Every moment they are at their polished best. Love making is not a romance, but a business.

For a time after matrimony they become the most abject of husbandly slaves—the careful chair fixers, daily orchid providers, with all the other well-bred gestures of their sinister roles. In this manner they manage to get a grip on the wily bank roll.

Then they begin their philandering until the complications force the victims to parental shelter and the usual Reno-ration. But somehow their cast-off wives always remain their friends—slipping them a check now and then. The disillusionment does not make them forget they were "wonderful lovers."

Food prices continue their Brodie. Two restaurants on Fifth Avenue now offer plate dinners at 50 cents.

YOUR HEALTH

An Ounce of Prevention Is Worth A Pound of Cure.

By Dr. Royal S. Copeland.

Doctors use a great many big words. "Encephalitis" is one of these. This word is defined as an inflammation of the brain substance.

To the anatomist the brain is known as the "encephalon." This shows you why the term encephalitis is used to express inflammation of the brain.

Even the doctors heard little about encephalitis until after the influenza epidemic of 1918 and 1919. It was observed that influenza was followed in some cases by certain symptoms which indicated an inflammation of the brain. To this disease was given the name "influenza encephalitis." It is known to the laity as "sleeping sickness."

The way the ailment announces its presence is by the haziness of mind or actual unconsciousness which suddenly appears. The afflicted person is walking along the street and suddenly falls down, unconscious, or almost so.

This attack is not like a "fit" as ordinarily understood. There are not likely to be convulsions and frothing at the mouth. There is a dullness or stupor which was never experienced before.

In some cases there may be convulsive attacks. Later on it may be observed that the eyes do not focus or they appear crossed.

Sleeping sickness is an obscure sort of ailments. Sometimes it is extremely difficult to determine that it is really an attack of encephalitis. The doctors have difficulty in deciding whether the symptoms are due to tumor of the brain or hemorrhages into that organ. There have been cases where it was first thought the patient had been poisoned.

I am speaking of sleeping sickness because of a letter which came to me from Toronto. I suppose there have been cases there as there have been in other parts of North America.

The severity of the symptoms leads always to consultation with the family doctor. On this account it is unnecessary for me to make any statement regarding the treatment.

I am glad to say that many of the patients I have known about have recovered. It is necessary to be conservative, however, because any inflammation of the brain is bound to be serious and the recovery slow.

The onset of sleeping sickness is sudden, fever appears and the symptoms develop rapidly. You need not be frightened if you have a headache and general discomfort. These passing symptoms do not mean sleeping sickness. As a matter of fact there are so few cases there need be no fear of its attacking you or yours.

Answers to Health Queries.

A. R. Q.—What is the cause of a red and shiny nose?

A.—Poor circulation, indigestion and constipation are usually contributing factors in such cases. Sometimes it is associated with catarrh. If this is the case, special treatment is necessary.

F. H. Q.—What causes me to keep my mouth open while sleeping? I have had my tonsils and adenoids removed.

A.—This may be due to nasal catarrh. Special treatment is necessary if this is the case.

J. M. Q.—What do you advise for ulcer of the stomach? Can it be cured?

A.—Special diet and medication is necessary in order to effect a cure. Butter-milk is usually given. For full particulars send a self-addressed, stamped envelope and repeat your question.

Walking along the Bowery the other evening, a band of salvationists were singing hymns a few steps from what was once the most terrible dive in America—McGurk's Suicide Hall. In the halcyon days it was a larger beer and concert parlor whither lost and forlorn ladies crept to pour carbolio acid in their beer and fall to the floor with faces wreathed in sardonic and agonizing grins. Suicide Hall had a record of 27 suicides among its soiled sisterhood. It also had a bouncer who was one of the most ferocious gangsters the East Side ever bred—"Fat-Em-Up" Jack. McManus, who could snip off an ear with a single iron-jawed clip. But like the rest of his clan, he died as he lived, by the gun.

It is a dramatic story bruited about the Tenderloin. She was a sacrificial figure in a famous murder trial. Not long ago in her cups she met a reporter who had covered the miserable ordeal she suffered. She beckoned him to her table. "Listen," she said, "I have always wanted to tell you that out of my terribly misspent life the thing I have regretted most is that as a witness I have to slander the memory of the only man in the world who ever treated me as a gentleman."

The latest in wrist watches is a half-dollar size and almost as thin, which does not have to be wound. It is guaranteed for eight years and is kept perpetually ticking by the movement of the wearer's arm. It is a set-back to those of us who fell heir to the snap hunting case watch with a winder as big as the front door key to a boarding house.

During formative years in the city, I carried a watch with the winder dangling to the chain. Invariably it inspired those sinister giggles suggesting pantaloons had slipped their moorings or something. There are two things you have to give up in the city—the hunting case watch and long underwear.

And a Madison Avenue haberdasher is showing underwear for gentlemen in pink and lavender tints with cut out monograms at the hip. O, ginger cookies!

Other Editors Say

The Hot Dog Crop.

Hot Dogs to the number of 880,000, 000 were eaten in the United States last year, according to the Packers and Sausage Manufacturers' association, or nearly eight for every man, woman and child. Thus one is almost forced to believe in spite of those who cherish illusions about turkey, hominy and other native delicacies, the national food of this country is the hot dog, an imported product.

At first glance this is gloomy news. For the hot dog, whatever its virtues, is surely not elegant and a nation which has a predilection for it seems somewhat lacking in taste. But after you think about it a while your realization that things are not quite so bad as they appear. For the hot dog is hardly any American's first choice in food. It belongs, rather, in the category of his second choice it is eaten when he is unable to obtain the things he likes better. In this category of second choice it no doubt heads the list: it has superseded the sandwich, the bag of popcorn, the hokery-pokery block and the other things which a generation ago enabled us to stifle hunger under emergency conditions. We eat it at baseball games, where we take what we can get, passing a dime down the row from hand to hand; but we do not eat it at a banquet to Babe Ruth. We eat it on a roadside, sitting on the running board; but we do not eat it at a roadhouse. We eat it on the Concy Island boardwalks, but we do not eat it at Feltman's.

Bearing this point in mind, we can concede that the hot dog has much to be said for it. It beats a sandwich all hollow, as it has some juice in it and does not choke you when you try to swallow it. It beats peanuts, popcorn and such things, as you can actually get your teeth into it and chew a while. And it beats hokery-pokery, ice-cream cones, and such things, at least so far as men are concerned, because men for some reason have an aversion to sweets. And, finally, lying between two halves of a split roll, it is gone when it is gone, and you do not have to call in the fire department to get your fingers washed. As for us, we are in favor of it, and rejoice that we have lived to see the day when it is dispensed from edifices built in the image of Greek temples.—New York World.

Buy Your Home Now!

You hesitate about buying a home or making an investment you know you should, because it would limit your spending money.

Isn't it this thought, rather than that you might not be able to meet the installments, that keeps you from assuming the responsibility? You are able to meet all your desires, to a certain extent, by using practically all of your income.

For years you have kept this up. Paid hundreds, perhaps thousands, of dollars in rent.

All you have to show for it are your receipts.

If you had paid for a house as rent, you might have had a large equity in it or possibly all of it paid for by now.

Will it ever be possible for you to pay cash for a home at your present way of living?

Isn't the installment plan the only way for you?

As you grow older you will find that not owning a home will worry you.

If you wait too long it may be too late for you safely to obligate yourself with the burden of paying for a home.

Better start at once.

The longer you put it off the harder it will be to convince yourself you should buy a home.

HOW IS IT YOUR WASHER GETS CLOTHES SO MUCH WHITER THAN MINE?
IT ISN'T THE WASHER, ANNE, IT'S THE SOAP I USE

YOU SEE, THIS SOAP IS DIFFERENT IT'S TWICE AS CLEANSING AS OTHER SOAPS. THE WASHER SALESMAN ADVISED IT

I'VE HEARD ABOUT RINSO BEFORE—I MUST TRY IT

(Thousands write us letters like this)
"Safe for finest linens" says Mrs. G. Lothamer, Of Spring Street

"I've tried a lot of different soaps in my washer, but nothing comes up to Rinsol. It goes lots farther than other soaps. The suds don't die down—they last and last."
"And when it comes to washing clothes snow-white—nothing equals Rinsol. Rinsol suds are safe, too, even for the very finest linens. Rinsol gets my vote—for laundering, for dishes, and all other cleaning!"
MRS. GILBERT LOTHAMER, Spring Street, East Liverpool, Ohio.

Millions use Rinsol—The makers of 36 leading washers recommend Rinsol. For this famous hard-water soap washes clothes extra-white! Great for tub washing, too; saves scrubbing... and so saves clothes, saves hands. A compact, granulated soap—cup-ful for cupful Rinsol goes twice as far as lightweight, puffed-up soaps. HILLS COMBED

Fugitives Abandon Auto
Near Gallipolis; Sec-
ond Car Wrecked.

CHARLESTON, W. Va., Feb. 21.—Eluding the authorities of a score of counties in West Virginia, Ohio, and Kentucky, four of the six prisoners who escaped from the Kanawha county jail here yesterday after brutally beating a jailer, were still at large today.

Poses late last night captured Gerald Flemmer and Virgil Kempfin. The former was found in hiding here and the latter was discovered in East-bank, across the river from here.

Heavily armed forces of county and city authorities combed the hill regions today in search of Adron and Dana Bias, brothers of Huntington, W. Va., Julius Liebel, of Charleston, and W. E. Proctor, who was being held for Raleigh, N. C., authorities on charges of robbery.

The six prisoners gained their freedom when they slugged a jailer, obtained the keys to the jail door and commandeered an automobile which was passing in front of the jail when the men reached the street.

The automobile was found abandoned near Gallipolis, O., and a second machine, believed to have been stolen in Gallipolis, was found wrecked at the foot of a steep embankment on the outskirts of Athens, O.

The prisoners are believed to have obtained a third automobile and headed for Huntington, W. Va., running over a trail which took them back and forth into Ohio and West Virginia.

Commandant Hyde Speaks.

"Not Far From the Kingdom"

was the subject of Commandant Hyde,

of Cleveland, in his second discourse

at a special series of meetings at

the Salvation Army citadel last night.

"People living a moral life who ap-

parently are almost in the kingdom

of God are in as much danger as those

who are participants in fragrant sins

and concededly far away from it," he

declared. "For they are both out-

side of it. And being outside they will be lost.

"When Noah built the Ark and

closed its doors there were thousands

just in front of the entrance ways.

They were doomed as much as those

who happened to be miles away from

the huge vessel. It will be so with

those complacent and snug in the

seeming security of being almost

within the kingdom while still with-

out it and against whom little save

the fact they are outside can be

said."

Robert M. Beatty, 81, died today in his home near the Washington school, back of Chester, W. Va., after a long illness.

He leaves six sons, Thomas, East Palestine; Evan, Minerva; Carl, Los Angeles, Calif.; and Stewart, Edward and Ford, East Liverpool, and five daughters, Mrs. Clara Felton and Mrs. Olive Gebble, East Palestine; Mrs. Claudia Davis and Mrs. Elizabeth Farish, Chester, and Mrs. Bessie Williamson, Gridley, Kan.

LINDY IS BEST COUNTERPART FOR COL. CLARK, SAYS GOVERNOR

COLUMBUS, O., Feb. 21.—"Perhaps the best counterpart in our day for Col. George Rogers Clark is Col. Charles A. Lindbergh—'Lindy,' as we all call him," declared Gov. Myers V. Cooper this afternoon, in an address broadcasted over WEAQ, Columbus, and WLW, Cincinnati.

His talk was a feature of George Rogers Clark day program of the "Ohio School of the Air." He eulogized the achievements of Colonel Clark as he participated in the struggles of the original 13 colonies for freedom from Great Britain.

"Like Lindbergh, Clark was a 'doer,' not a 'talker,'" the governor said. "He thought out his plans for himself and told no one of his intentions until ready to put them into effect."

CALL PENCE ACT REPEAL BALLOT

COLUMBUS, O., Feb. 12.—Measures scheduled to reach a vote today in the senate on a question of passage include the Carpenter bill, providing for repeal of the Pence act which regulates rates collected by public utilities; the Nickels bill, requiring auto drivers to be licensed, and the Gillen bill, redefining laws affecting criminal procedure.

The house is expected to take further action today, or early next week, on the Anderson resolution, empowering the house committee on benevolent and penal institutions to ask Warden P. E. Thomas, of the Ohio penitentiary, for "full information as to conditions that have resulted in the escape of prisoners," and then submit a report to the house "for further consideration."

TWO ARE NAMED ON GAME BOARD

COLUMBUS, O., Feb. 21.—Announcement of the appointment by Governor Myers V. Cooper of Mrs. W. N. Harder, Marion, and of Joseph Pfueger, Akron, as additional members of the advisory board to the state division of fish and game was made today.

The governor, also, selected Mrs. Emma Backus, Cincinnati, as his representative at the celebration on February 25 of the 150th anniversary of the surrender of Fort Sackville to George Rogers Clark at Vincennes, Ind.

Train Kills World War Veteran.

GALLIPOLIS, O., Feb. 21.—Funeral arrangements were being made here today for Milton Dixon, 35, World war veteran, who was struck and fatally injured by a railroad train near his home yesterday.

Capture Fourth Man

two shirts, one of which was stolen from the store at Hartman farm.

A suspect, said to resemble Walton, is being held by police at New Philadelphia. Penitentiary officials, after being given a description of the man, doubted that he was the wanted convict, C. A. Myers, superintendent of the Ohio State Bureau of Criminal Identification, is enroute there today with fingerprint records of the escaped criminal. The man arrested gave the name of Harry Goldberg.

John Guy, who captured Young, is the officer who took Russo into custody. Under state law, he is eligible to a \$100 reward.

No Notification of Prison Break.

COLUMBUS, O., Feb. 21.—Franklin county authorities, who captured four of the five convicts who escaped from the Ohio state penitentiary early Tuesday, were never officially notified of the jail delivery. It was charged by Chief Deputy Charles B. Norris here today.

"The first we knew of the escape was newspaper accounts," Norris declared.

Penitentiary officials, he charged, are supposed to notify all sheriff offices immediately after a jail delivery.

Winter Reigns

(Continued On Page Six, Col. One)

Virginia, North Carolina, Tennessee and Kentucky.

Storm Warnings Displayed.

Storm warnings were displayed from Atlantic City to Eastport, Me., and northeast gales were predicted from Sandy Hook east this afternoon and tonight.

Meanwhile, another icy wave was crackling down from Canada through the Missouri valley and was due to reach Minnesota today.

In North Dakota, the thermometer registered 10 degrees below zero.

In Canada north of the Dakotas, it was 30 degrees below zero.

It was the heaviest snowfall of the season along most of the North Atlantic states. There were 11 inches of snow in Harrisburg, Pa., and 15 inches of snow in Nashville, Tenn.

From five to ten inches of snow, according to the drift, was recorded in New York, New Jersey, Pennsylvania, Ohio and Western Maryland.

West Virginia and Tennessee.

Ohio Blanketed With Snow.

COLUMBUS, O., Feb. 21.—Ohio was blanketed with snow from five to seven inches deep today. This winter happens to know because he cleaned the sidewalks this morning.

But that's not all—it is still snowing and the pleasant task of more shoveling awaits the informant when he returns to his domicile tonight. It's enough to make a man dine at his club.

Traffic in New York Paralyzed.

NEW YORK, Feb. 21.—Surface and harbor traffic was all but paralyzed today as New York floundered around in the worst snow storm of the year.

The snow was accompanied by a brisk wind and a falling thermometer. The department of street cleaning ordered out 672 snowplows and 4,500 men to keep traffic clear.

Ships in the harbor reported they were unable to proceed because of poor visibility and hundreds of employees were delayed in reaching their places of business.

Weather Bureau Warning.

WASHINGTON, Feb. 21.—The U. S. weather bureau issued a warning today of a storm moving northeastward from the Virginia capes to Eastport, Maine.

There will be gales along the Atlantic seaboard tonight from Atlantic City, N. J., northward.

NEWARK, O., Feb. 21.—Because of spurned love, Bertram Johnson, 22, automobile mechanic, shot and killed Eliza Campbell, 22, and then fatally wounded himself on a street in the heart of the downtown business section here last night.

Johnson died in a hospital here early today.

Crowds on the streets stood horror-

JILTED, SHOTS GIRL, SISTER

EAST ORANGE, N. J., Feb. 21.—Angry, because she had jilted him, a policeman today shot and killed Miss Margaret Bowes, and seriously wounded her sister, Miss Frances Bowes.

The shooting occurred on the street while the girls were hurrying to work. As they screamed and fell, the man, identified as Peter J. Mooney, a sergeant in the Delaware, and Lackawanna railroad's private police force, turned the gun on himself and shot himself near the heart. He is in serious condition. A note giving the cause for his act was found in his pocket.

stricken as Johnson drove his automobile in the path of Miss Campbell and pumped five bullets from a revolver into her body. She died instantly.

He then sped away in his car. Chased by policemen because he had run through a red traffic light, he turned the revolver on himself. The pursuing police were unaware that he was the murderer of Miss Campbell until they had brought him to the hospital.

It was Johnson's second attempt to do away with the lives of himself and the girl. He drove his car on a railroad track near here Sunday and declared they were going to stay there until a train came. Miss Campbell persuaded him at that time to abandon the project and drive her home.

U. S. CRUISER OFF FOR CHINA

WASHINGTON, Feb. 21.—The U. S. cruiser Trenton has been directed by the chief of the Asiatic squadron to proceed from Manila to Chefoo, China, where there have been recent native disturbances, according to advice to the navy department today.

Naval officials said the movement was one of the routine inspection, and did not indicate any serious trouble.

NEGRO KILLED, POLICEMAN SHOT

CHICAGO, Feb. 21.—Richard Percy, 50, a Negro, is dead, and Policeman Patrick Fox is probably fatally wounded here today as the result of a gun duel in Percy's flat.

Four policemen, including Fox, went to the Percy apartment in response to a call that "a man with two guns is beating a woman." Percy met the officers at the front door and opened fire with two guns. Fox went down, wounded in the abdomen and right arm.

The other officers ended the crazed man's attack with a volley of well-aimed shots.

Percy, according to his wife, Lillian, became suddenly "mad" and threatened to kill her and their five-year-old daughter.

Solicitor Frank H. Hoover

When the East Liverpool municipal court was established in January, 1926, Frank H. Hoover, disabled World war veteran, became its first prosecutor along with his work as city solicitor. He is now serving his second term.

Hoover was born in Ellwood City, Pa., August 28, 1895, and came to East Liverpool when he was seven years of age. He entered the potteries when he was 17, working in the clay shops. He enlisted with Company E, Tenth Ohio Volunteer Infantry, May 31, 1917. Suffering from a machine gun wound, which shattered the bone of his right leg, Hoover remained in the Walter Reed hospital, Washington, until Nov. 5, 1921.

He graduated from the National Law university in 1924 and in the same year was admitted to the practice of law in Ohio.

Hoover is commander of Private Eddy Post No. 66, Veterans of Foreign wars, and is a member of the Masons. He was married February 18, 1926, to Miss Harriet Clogston, nurse, of Bridgeport, whom he met while in a government hospital.

RETIRED TEACHER DIES OF BURNS

XENIA, O., Feb. 21.—Anna McCracken, 50, retired teacher and a sister of the late Dr. Henry M. McCracken, former chancellor of New York university, died today of burns sustained when she fell unconscious against a gas heating stove in a room of her home here.

Neighbors who broke into her home last night, after missing the aged woman for a day, found her unconscious body against the stove.

Miss McCracken came from a family long prominent in educational circles. She is survived by two nephews, Dr. Henry Noble McCracken, president of Vassar college, and Dr. John H. McCracken, former president of Lafayette college, Easton, Pa.

Weds Between Acts of Show

NEW YORK, Feb. 21.—Charlotte Odis, 19, a dancer, married Albert Johnson, 23, a real estate operator of Morristown, N. J. Between the acts of "Lady Fingers" in which she is playing, the other night. And her press agent didn't tell anyone about it until today.

Slate Fall Kills Ohioan.

POMEROY, O., Feb. 21.—John Elliott, 50, is dead here today, a victim of a slate fall in a mine near here late yesterday.

Elliott was working in the mine when the slate became dislodged and he was buried beneath two tons of the debris.

borers across the border, and will write no more reports.

TEXAS bankers pay \$5,000 in genuine cash to anybody that kills a bank robber.

Several have been accused of killing and collecting rewards on gentlemen that were not robbers at all, others are accused of "framing" would-be burglars, arranging with them to rob a bank, and killing them in the process. A sure and "lawful" way of getting money.

IT IS not likely that the rewards will be given up for the Texas bankers say they pay.

It makes bandits uncomfortable to know that anybody who shoots a hole through them will get \$5,000, and Texas bank robberies have diminished.

YOU enter, press a button in a dark room and light floods the room. We are used to that miracle. But this one is new. An airplane approaches a dark landing field, sounds a loud siren. Sound waves, acting on a mechanical guard or robot, immediately turns on the lights, flood the field and make landing safe. And no human being plays any part, except the pilot with his siren.

The next step will be wireless power sent from the earth to airplanes in the air. Then there will be no need of refueling in flight, no need of a plane coming down. And that perhaps is not far away.

The New York Central Railroad installs radio apparatus on all its long freight trains. The men in the red caboose at the far end will be able to talk through the air to the engineer, who can talk to them. This interests those old enough to remember when brakemen, at risk of their lives, raced along the icy tops of wooden cars in winter, jamming on hand brakes when the whistle blew.

ONE difficulty about holding up interest rates is the abundance of money, with people that have it eager to lend it.

This forces call money down to 5 per cent, in spite of virtuous financiers seeking to protect the little people against themselves by making them pay 12 per cent on loans.

Pay Boost, Meter Plan Receive Baker's O. K.

Acting Mayor Signs Two Resolutions Passed by Council Last Tuesday on Third and Final Reading.

WELLSVILLE, O., Feb. 21.—The city will purchase a recording water meter, at a cost of approximately \$1,000 or whatever amount under that is deemed necessary, and Service-Safety Director George B. Imbrie gets his salary increase.

This was assured when Acting Mayor Clyde Baker today announced that he had officially approved both measures and the resolutions, passed on third and final reading last Tuesday night by city council, will become effective, according to City Solicitor Raymond Knepper, in 30 days.

Up to the present time, Director Imbrie has been receiving an annual salary of \$1,000 for his duties for the municipality, or slightly better than \$80 a month. Under the provisions of the resolution approved by council and the acting mayor he will receive his wages at an annual rate of \$1,400 or \$120 monthly.

The meter which the city will purchase will be installed in the main water line from the reservoir to the city for the purpose of determining, principally, whether the city is using more water than is commensurate with the normal demands of domestic and industrial users.

The meter will also reveal, council men hope, methods for increasing the city's supply of water and, probably, for filtering it.

Gasoline

THE MILEAGE you get depends largely upon the kind of gasoline you use. A highly-volatile gasoline starts your motor quickly and burns completely in the cylinder. To give you great power, the gasoline must also contain the heavier elements that create the most heat. And only a gasoline combining high volatility with power-producing elements in precisely correct proportions can give maximum mileage and economy.

SOHIO, the new unblended high-test gasoline, is an ideal motor fuel. The new method by which it is made gives our engineers complete, accurate control of every step in its manufacture. It is a pure, dry, high-volatility gasoline that also contains the heat-elements that produce full power and big mileage.

Try SOHIO Ethyl Gasoline in your car. Judge its superior quality for yourself. You can get it now anywhere in Ohio—at our 650 service stations or at SOHIO dealers'.

Highs Close Season With Columbus East And Cambridge

Capitals In First Trip Here

Will Play Potters Friday; Honor Parents Saturday.

Captain Bob Witherow, one of the best cage and gridiron athletes turned out of high school in a number of years, together with Dave Feit and Harry Lindell, who also have contributed their share to East Liverpool school athletic history in basketball and football, will make their final bow as Blue and White performers in two week-end court encounters which close the Potters' season.

They will say it with field goals in tomorrow night's game with Columbus East and again on Saturday night against Cambridge.

And after that—On to Columbus! That will be their slogan as they launch their 1935 drive for the state championship, a goal that they missed last spring by the slimmest of margins.

Columbus East high will be playing for the first time on an East Liverpool court and a large crowd of East Liverpool fans undoubtedly will be on hand to verify their own opinions that they don't make 'em in Columbus any better than they do in East Liverpool.

On Saturday night Cambridge comes to the auditorium for the last home game of the campaign and, in view of the importance of the occasion, it has been decided to hold a "parents' night" observance.

The mothers and the dads of each player on the squad will be escorted out on to the court and, with their sons, introduced to the crowd.

Local Reserves will play the Wellsville Ex-Hits in the preliminary at 7:30 tomorrow night, the main event going on at 8:30.

Little "Y" Five and a suitable opponent will start the festivities at 7 o'clock Saturday night. Reserves will play the Allegheny Reserves at 8 and the Cambridge game goes on at 9.

Collegians, Laughlin 4-5 Loop Winners

Defeat T. S. T. and Laughlin 6-7 on Chester Court.

In two close, exciting games last night on the Chester auditorium court, the Collegians defeated T. S. T., 4-3, and Laughlin 4-5 won from Laughlin 6-7, 29-19.

Vanaman starred for the T. S. T. quint, gathering five field goals and three fouls, besides playing a sensational floor game. Campbell led the Collegians with 15 points, followed by Roor and Keightley with nine apiece. The score was tied at 20-20 at the half. The Collegians jumped into the lead in the second half, but T. S. T. rallied and began to overhaul their foes, although they were unable to overcome the Collegians' lead.

In the second game, Laughlin 4-5 clinched their hold on first place in the circuit although the game was a toss-up all the way. Davis, Kirkham and Bromby were the 6-7 stars while Bloor and Staley were the principal performers for 4-5.

Morris-Caruso Bout Clinched; Meet Tuesday in Six-Rounder

Weight Limit Set at 128; Tarzan Joe Poole, Freddy Edwards, "Pison" Pizzone on Card.

FOLLOWING a lively controversy over weights, guarantees and other items incidental to hooking up Nick Caruso, the Midland star, and Harry Morris, "Weirton Flash," Matchmaker Ray Foutts of the Valley A. C. today announced he had the two pug down for a six-spot on the Tuesday show at Wellsville.

With the signing of Caruso and Morris, the entire card is complete. There will be two other sixes and two fours, or five scraps in all.

While a pound or so ordinarily makes little difference, the scales will be watched with interest when Morris and Caruso, step on them on Tuesday afternoon. The Morris contingent especially will be vitally interested in the weighing-in proceedings because Caruso from all indications, will go on with several pounds' advantage.

The limit has been set at 128 and forfeits will be placed to guarantee adherence to the poundage rule. The

weight limit will not bother the Weirton scrapper but Caruso is going to have to do some drying out, probably, to get within the quoted figures. The rugged Midland boy ordinarily may go a few pounds over the 128 mark but is confident that he can get down to the required weight before Tuesday.

Morris trained rigorously for the scrap with Young Sweeney in Steubenville the other night in which he got a draw and went in weighing 124.

Freddy Edwards, of Chester, will take on Rip Shirley, Canton, in a six-rounder at 150 pounds and Tarzan Joe Poole of Lawrenceville will come back against Pat Perone, Canton, in six cantos at 165 pounds.

Pizzone, the Wellsville puncher, is matched with Fearless Franks of East Liverpool in a four-rounder, and Tommy Gaultier, pride of the Immaco club club, Wellsville, makes his debut against K. O. Alex in the opening four.

Matchmaker Foutts was disappointed in his inability to get Kenny Davis, the local favorite, on the card this time, but was unable to line up a suitable opponent for him. Several prospects refused to go on with Davis.

Tickets for the mill are on sale at Frank Diamond's, this city; the Smokehouse, Wellsville, and Byron Foutts, Midland.

STIRLING CONFIDENT OF WINNING; WON'T MUFF BIG CHANCE, HE SAYS

MIAMI BEACH, Fla., Feb. 21.—Young Stirling, of Macon, Ga., predicted today that he will win from Jack Sharkey, of Boston, Mass., "by a knockout" in their fight in Flamingo Park arena on the night of February 27.

"I've got to win this fight, and I'm going to do it," the handsome young Georgian told International News Service this morning as he prepared to resume his daily workouts at the Casino. "It's my big chance. I'm not going to miff it. I am in great shape and expect to put up the battle of my career next Wednesday night."

Stirling, a modest chap of 24, discussed the forthcoming fight reluctantly. There is nothing of a bragging nature in his conversation. He is just a young, ambitious fighter who realizes he faces a big opportunity and is determined to win.

His mother, Mrs. Lillie S. Stirling, told this writer that she will be very much surprised if her son does not flatten the Boston Gob. She said she is convinced her son will "take" Sharkey just as he has beaten the many fighters he has been battling all over the country in the last year.

She explained her son's poor showing against Paul Berlenbach, in New York, by saying that "every fighter has a bad fight or two in his system."

"Have you ever seen your son on the floor?" I asked her. "What would your reaction be if he is knocked out by Sharkey?"

A smile lighted up her blue eyes. "No," she said, "I have never seen W. L. knocked out. And if I did I do not think I would collapse or anything like that. I would take it philosophically. It is all in the fight game. I did see my other son, Baby Stirling, knocked out by Abe Lucky in Augusta, Ga. I happened to be in Baby's corner because 'Pa' Stirling was somewhere else that night. Baby went fine until the seventh round when he ran into a right uppercut. I did not faint or anything like that. I simply saw to it that he was given good attention. He came out of it all right. It was experience for Baby. He had to have it sooner or later."

Mrs. Stirling glanced affectionately at "Baby" Stirling who was shadow-boxing in one of the two rings constructed in Casino Park. "Baby" was going through his paces with a dozen other members of the Stirling stable. They put on quite a show each day for the spectators who come to watch "W. L." train for the Sharkey bout.

"Did you raise your son to be a fighter?" Mrs. Stirling was asked. "I certainly did," she replied, without hesitation. "Why I used to box with him myself until he was fourteen. Pa hit too hard so I used to put the gloves on with him. I always wanted W. L. to be a fighter and I hope that some day he will be the champion of the world."

IF TEX COULD ONLY BE THERE NOW

By Sid Mercer. MIAMI BEACH, Fla., Feb. 21.—If Tex Rickard were alive today he would be all pleased up over the stir that his Queensberry venture in this winter playland is creating.

Some of the things that Tex visualized when he moved a big fight out of Madison Square Garden into Miami Beach are now coming to pass. The Sharkey-Stirling fight crowds are beginning to roll in here in such numbers that any kind of lodging, from the seaside hotels with their \$100 a day suites to the smallest apartments, are at a premium.

Usually at this time the tourist tide begins to ebb back to the north but in Miami, hotel rooms are so scarce that the city council is now threatening to revoke some licenses because the rates have been jumped so far above the prices advertised throughout the country and guaranteed by the city.

The beach hotels have an even greater capacity and it is now next to impossible to get into them.

Some of the fight visitors are living as far away as Hollywood, fifteen miles to the north, and at Coral Gables, six miles out of Miami to the west.

When the big crowd hits here the first of next week the place will be a mad-house.

SUPPLY NINE MEETS TONIGHT

Potters Supply baseball club will hold a meeting tonight at the Potters Supply, at 8 o'clock.

All of last year's players and any others interested are requested to turn out for the session.

PAULINO-KAYO END TRAINING

NEW YORK, Feb. 21.—K. O. Christner, the rubber man from Akron, Ohio, and Paulino Uzcudun, the pride of all Spain, wound up training today for their bout in Madison Square Garden tomorrow night.

The outcome of the fight is expected to furnish an up-to-date line on Jack Sharkey's chances against Young Stirling in Miami Beach next week, inasmuch as Sharkey had difficulty in winning a decision over Christner here recently. Paulino declares he will "show up" Sharkey by defeating Christner easily, while Christner believes the experience he gained against Sharkey will enable him to flatten the rugged Spaniard.

Telephones installed throughout the world last year totaled 1,500,000.

Upsets Mark P.R.R. Prelims In Pittsburgh

Louis Santucci, Feather Favorite, Loses to Tony Fronti.

Upsets marked the first eliminations preliminary to the Pennsylvania Railroad indoor athletic championships to be held in the Public Auditorium here on March 23 in conjunction with the police pension fund.

The dope was crossed at the Pittsburgh division championships just held at Wilmerding, Pa., when Louis Santucci, one of the cleverest featherweight boxers in western Pennsylvania, was beaten by his fellow employee, Tony Fronti, of Pitsburgh, Pa.

In the light-heavy class, Mike Kuzma, who was picked to win the title in that event, was knocked out in the first round by Johnny Toth of the Pitsburgh shops. Toth, swarming a terrific left to Kuzma's stomach shortly after the opening bell, sent his opponent to the mat for the full count.

Other summaries follow: Johnny Haggerty, System bantamweight champion, made a good start toward retaining his crown when he defeated George Tomasky.

Frankie Moran was awarded the decision over Windsor Davis in the light-weight division.

Bob Kraps earned the decision over Dave Davis after three fast rounds.

In the only wrestling match held, Art Youngstead won the judge's verdict over Charles Svoboda.

The winners of these bouts advance to the second round in the tournament to decide who will compete in the finals at East Liverpool. These Pittsburgh division winners will meet the best of the Conemaugh and Monongahela divisions here to offer at Wilmerding, Pa., on March 3, in the Western Pennsylvania championships.

Potters Draw Stubbers In Sole Tourney Clash

Dennison Pairings announced; Victory Over Cartledge Combine Will Qualify Locals for Division Finals.

East Liverpool high school cagers will battle Charley Cartledge's Red Comets of Steubenville in the one and only game that they will play in the northern section, eastern division, preliminary tournament to be held Saturday, March 2, at Dennison high school.

The Steubenville-East Liverpool quints were paired off in the drawings made yesterday afternoon at Dennison high school under the supervision of E. F. McCarroll, Dennison high principal and manager of the tournament.

A victory over the Stubbers, whom the Potters have defeated twice this season, will send the locals back to Dennison on the following week along with seven other teams, three northern selections and four southern entries, for the eastern division finals.

Out of these eight, there will emerge one team that will represent the eastern Ohio division at the state finals in Columbus the following week.

Sectional tournaments will be held simultaneously in Dennison, for the north, and Bellaire, for the south. Drawings for the Bellaire tourney will be held Friday afternoon.

The northern section entries are: East Liverpool, Dover, New Philadelphia, Uhrichsville, Coshocton, Steubenville, Wellsville, Toronto and Mingo.

Southern section entries: Martins Ferry, Bridgeport, Bellaire, Marietta, Zanesville, Cambridge, St. Clairsville, Shadyside and Barnesville.

Here is the Dennison tourney schedule for March 2.

1:30 p. m.—Mingo Junction vs. Coshocton.

2:45 p. m.—Steubenville vs. East Liverpool.

4:00 p. m.—Wellsville vs. Uhrichsville.

7:30 p. m.—Dover vs. New Philadelphia.

8:45 p. m.—Winner of the Mingo Junction-Coshocton game vs. Toronto.

The nine entries made seven byes necessary in the first round, Mingo Junction and Coshocton being the "unlucky" teams in that either would have to play two games to land a place with the quartet that goes back to the division finals while one victory qualifies any of the remaining seven.

The same situation will obtain in the state finals to be held in Columbus, inasmuch as there will be nine

RUTH WINS BY TECHNICAL K. O.

WEST PALM BEACH, Fla., Feb. 21.—"Babe" Ruth vs. Jack Dempsey, a farce presented by Harry Erno and Arthur Haimenstein, had its premiere at a charity affair here last night. Ruth won by a technical knockout in the second round.

The home run king and the former heavyweight champion sparred for one round with honors even. In the second round Dempsey absently laid his "iron mikes" against the Babe's jaw. Ruth stepped into the wings of the stage and reappeared with a baseball bat.

"Are you going to return to the ring?" inquired a reporter who had just arrived.

"Not that ring," replied Jack, glancing at the belligerent Babe and his big bat.

teams from ten state fighting it out for the championship.

The divisions will be represented as follows: Central, one team; Eastern, one; Northeastern, two; Northwestern, two; Southeastern, one; Southwestern, two.

The Salem, Canton and Akron contenders are listed in the Northwestern division.

THURSDAY, FRIDAY, SATURDAY

The Outstanding Chevrolet of Chevrolet History has now been seen and inspected by millions of people in every section of America—and every where it has been enthusiastically hailed as exceeding all expectations.

Everyone anticipated that Chevrolet would produce a remarkable automobile—but no one expected such a sensational six-cylinder motor... such delightful handling ease... such marvelous comfort... such luxurious

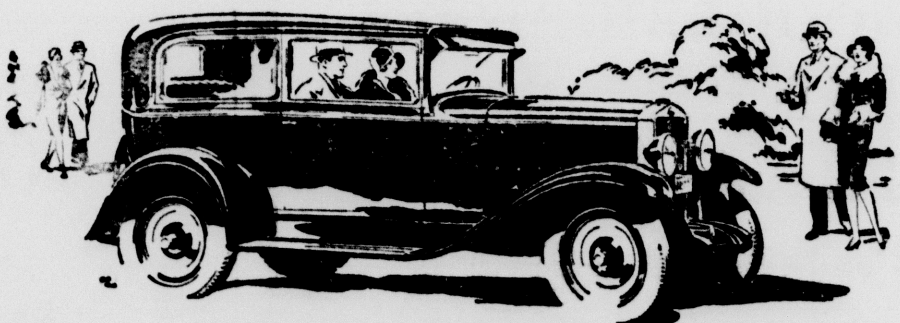

Fisher bodies... and a fuel economy of better than 20 miles to the gallon! And no one believed that it would be possible to produce such a car in the price range of the four!

If you have not already made a personal inspection of the new Chevrolet we urge you to do so. The beautiful new model are now on display at the Auto Show, Winland Building, and you are cordially invited to inspect them.

RIVER TRADE AWAITS BETSY ANN SATURDAY

After Repairs, Packet
Is Ready to Leave
Pittsburgh.

STAGE 15.8 FEET

Work is Started on
Cofferdam in
Allegheny.

After being tied up for the last two months at the Pittsburgh wharf, where she underwent numerous repairs, the Betsy Ann will enter the local packet trade again on Saturday. She is scheduled to leave the Pitts-

burgh dock at noon that day on a trip to Cincinnati. She will arrive at the local wharf Saturday night.

The river stage at noon today was stationary at 15.8 feet at Dam No. 8. The Old Reliable steamboat with 600 tons of scrap iron and the steamer Cruiser with six barges of coal passed here this morning for Weirton, W. Va. The J. A. Hillman, with seven empties, and the Sam Craig without a tow, passed here enroute to Pittsburgh.

Launches Steel Barges.
The Dravo Contracting company this week started work on the lower arm of the coffer, opposite Kittanning in the Allegheny river, to permit work on Lock No. 7. Pile driving continued in spite of the cold weather and it is expected to have the coffer completed this week. Extensive dredging will be done before the coffer is unwatered.

The Dravo concern this week launched three steel barges of the sand and gravel type from its Neville Island ways for the Ohio River Sand company, Louisville. It is expected two steel barges, all of the standard Dravo size, will be launched this week for the Whiting Turner Construction company of Baltimore for delivery to the upper Tennessee river.

Steamer Sinks.
The steamer B. R. Davison of the Penn Sand company sank at her landing at Rochester, below Dam No. 5, Tuesday night. The watchman and cook escaped. Advantage will be taken of the low stage of water in order to raise the boat before a rise occurs.

The Nashville Bridge company, Nashville, Tenn., this week laid the keel for a twin screw 750-horse power Diesel engine towboat for Captain Fisher of the Central Sand and Gravel company, Memphis. F. W. Trevor-row has been placed in charge of the Worthington Pump and Machinery Corporation with offices in Cincinnati. He will cater to the river trade between Pittsburgh and Cairo.

THREE PROBES OF PEN PLOT

Warden, Welfare Chief
And Cell Engineer
Act.

COLUMBUS, O., Feb. 21.—Three investigations are under way today, and another probe, which will probably be more extensive, is pending into the escape of five convicts from the Ohio state penitentiary here early Tuesday morning.

Warden P. E. Thomas is conducting a probe, and Welfare Director Hal Griswold has a separate investigation under way. J. B. Youngblood, construction engineer of the cell block from which the men sawed their way to freedom, is also conducting an investigation as to what measures he should take to make the new cell block "escape proof."

Representative James A. Anderson, of Stark county, introduced a resolution before the lower house of the state legislature yesterday to institute a legislative investigation. The resolution was sent to committee and is expected to come up for passage this week.

This investigation, if made, will probably be of far-reaching results.

Warden Thomas was apparently angered when he heard that the legislators had "meddled." He said, however, he would welcome the probe, as it would bring before the public the conditions he has to contend with in the lodging of more than 4,800 prisoners in the penal institution. The warden said the prison was overcrowded and that the legislative probe may result in the betterment of conditions.

DEATH ROLL

Orville E. Whinnery.

SALEM, O., Feb. 21.—Orville E. Whinnery, 64, father-in-law of Samuel Willaman, new athletic coach at Ohio State University, Columbus, died in his home here yesterday following two weeks' illness.

Mr. Whinnery was born in Salem. He was engaged in the farm, dairy livery and coal business for about 25 years, retiring several years ago because of failing health.

He is survived by his widow, Ada B. Whinnery; three daughters, Mrs. Willaman, Alma, student at Ohio State university, and Martha, at home; and two sons, Ray E., principal of the Leetonia High school, and Glenn, Salem High school student. Five sisters and one brother also survive.

Funeral services will be held in family home at 3 o'clock tomorrow afternoon.

Flesch Infant.

Leonard, the three-week-old son of Mr. and Mrs. Paul Flesch, died today in his home in La Croft. Funeral services will be held tomorrow afternoon at 2 o'clock. Burial will be made in Spring Grove cemetery.

KILL THAT COLD
Guard Against
"Flu" and Pneumonia

Don't fool with a cold. Use tried and safe method to fight "flu" and colds.

Medical authorities have issued warnings against a recurrence of the recent "flu" epidemic, similar to the second wave which followed the terrible scourge of 1918. They advise everyone to take no chances with a common cold, no matter how trifling it may appear.

Do the right thing now—take a cupful of steaming hot Bulgarian Herb Tea twice a week during these danger months. It will assist nature to quickly break up colds, and will fortify your system against the "flu" peril. Bulgarian Herb Tea is recommended by druggists everywhere.—Adv.

DR. J. B. GEORGE PAYS VISIT TO BILLY SUNDAY

Dentist is Four-day
Guest in Elyria
Meeting.

GREET PASTORS

Evangelist Prepares for
Campaign in Texas
City.

Dr. J. Bert George today sent letters to Billy Sunday, Homer Rod-

heaver and other members of the evangelistic party which held a six-week revival here late last fall in which he expressed his appreciation of the courtesy extended to him during his four-day visit to Elyria, last week where he attended seven services at the tabernacle.

It so happened that Mr. and Mrs. Sunday moved from their quarters in the hotel to the home of a Dr. Jackson, also a dentist, on the day that Dr. George reached Elyria. He was thus immediately placed by the evangelistic party in the room formerly occupied by the evangelist.

Situated some eight blocks from the tabernacle the hotel used by the evangelistic workers was visited daily by automobiles to take the party to and from the services. Dr. George, their guest during his visit, made the trips with them, and had a reserved seat on the platform by the side of Mrs. Sunday.

Eracts Corpus Christi Tabernacle. He found three former pastors from or near East Liverpool taking part in the campaign. There were the Rev. Dr. Edwin Kirby, formerly of the First Methodist Episcopal church here, the Rev. Mr. Brown, who at one

time was the pastor of the United Presbyterian church at Calcutta and the Rev. Mr. Mackey, formerly of Newell, W. Va. All of them greeted Dr. George cordially and renewed their acquaintanceship with him.

Dr. George found that Alfred Peterson, the advance man of the evangelist, had just returned from Corpus Christi church, Texas, where the next campaign of Mr. Sunday will begin one week from next Sunday. He had completed the building of the tabernacle there and reported much interest in the coming of the revival workers to that section of the country.

The week's delay incident to the opening of the campaign in Elyria will prevent additional rest for all of them. The start for their Southern objective will thus have to be made about the middle of next week from Winona, Ind., and the other places of their residences in order for them to be there in time for the Sunday morning opening.

Elyria Campaign is Success. One of the unique experiences that have come to the members of the party since going to Elyria was that of Robert Matthews, the pianist, who just a day or two before the arrival of Dr. George in the city, was permitted to hear his first born son, whom

HERBERT HOOVER, QUAKER, WILL "AFFIRM" SUPPORT OF CONSTITUTION

WASHINGTON, Feb. 21.—Although he has taken no one into his confidence, the understanding prevails in the capital that when Herbert Hoover takes the oath of office as president he will "affirm" rather than "swear" his intention of supporting the constitution.

Quakers don't "swear." They "affirm." Mr. Hoover is a Quaker. Authorities differ as to whether there has been a president who didn't "swear" to perform his constitutional duties.

There never has been a Quaker president, but some records maintain that Franklin Pierce, the fourteenth president, used "affirm" in taking the oath in 1853 because of a deep-seated aversion to "swearing." Other records state that Pierce used "swear."

he had seen but for a day or two before rushing to Elyria following its birth in January, crying all the way from Mississippi. This is perhaps a crying record and was possible only when, in speaking to his wife at her home in that state, she brought the lusty infant to the telephone and permitted his father to hear his wailings across a distance measured by the breadth of several states.

"Billy Sunday is working with even more than his accustomed vigor," Dr. George declared. "At the Sunday night service that I attended he had even the ministers in tears. There was a long lull following the giving of the invitation during which Mr. Sunday asked 'Who will lead the way?' And it was a gray-haired man who had been standing all of the while with his back against the wall at the extreme rear of the large tabernacle who did so. The spectacle of the man stalking determinedly all the way down the sawdust trail to the platform moved the entire assemblage and others thronged to the front.

"The meeting has had a tremendous effect on that section of northern Ohio in which Elyria is located.

People have been coming to the revival for miles around and there has been marked religious activity in adjacent church territory."

During Dr. George's stay in Elyria four East Liverpool girls, Misses Catherine McNutt, Edith Fox, Mary Walsh and Miss McCoy attended the revival for a few days. They also were cordially received by the members of the evangelistic party.

"East Liverpool," Dr. George said, "is remembered with interest by all of those who functioned in the revival here."

AMERICAN AUTOS DOMINATE WORLD

Last year, the club reported, only 520 motor vehicles were imported to this country, while 830,000 American cars were sold outside the United States.

SAMUEL E. KING DIES IN LISBON

LISBON, O., Feb. 21. — Samuel E. King, 74, died yesterday in his home, 215 East High street, after two weeks' illness.

Mr. King, who was born here, was formerly a member of the Lisbon police department, but had been employed for many years as a watchman by the National Brass and Copper company.

He leaves his widow, Mrs. Nan

King; two sons, Edward King, Springfield, Ark., and W. E. King, Lisbon, and a sister, Mrs. Elizabeth Burns, Lisbon.

Funeral services will be held in the home yesterday afternoon at 2 o'clock, in charge of the Rev. C. E. Lake, pastor of the Christian church. Burial will be made in Lisbon cemetery.

Because of complaints against the interference it was causing, broadcasting from the Eiffel Tower at Paris has been discontinued by the authorities.

All this Good in Every Spoonful!

YOU have heard how modern men are sadly lacking in things which can aid one's inner system. Make up this deficiency with syrup pepsin, and watch your appetite, your assimilation and elimination improve 100% in a week!

You needn't give up rich foods, nor go on a diet, for syrup pepsin is a liquid vegetable product that soon has stomach, liver, and bowels in condition to handle anything that's eaten — without distress and without fear of constipation. You don't have to purge your system with a powerful drug, but need only an occasional spoon of Dr. Caldwell's Syrup Pepsin to keep the whole digestion tract clean and sweet, and the bowels free from any accumulated waste. Children are healthier and happier, and elderly people have a far easier time where this ideal combination of laxative herbs and pure pepsin is fully appreciated.

Dr. Caldwell first used it back in 1875. Today, no druggist is ever without this famous prescription all put up and directions enclosed. A test of this remarkable preparation is easily made, and its merits quickly demonstrated, in one's appearance and feelings. Try it and see if there is not an amazing difference in the way liver and bowels function—and in the way you feel!—Adv.

THE RECORD-BREAKING NEW NASH "400"

Of all the New Cars
at the Motor Show
Only the New NASH "400"
offers these
outstanding features
as standard equipment
... without extra cost ...

Twin-Ignition Motor

Far more power and speed with greater economy of gasoline than possible with single ignition. At every speed this new Nash Twin-Ignition motor delivers wonderful performance. Instant, alert get-away and surpassing smoothness through the full range of power and speed.

Bljor Central- ized Chassis Lubrication

Press a pedal and 21 points, including all spring shackles, are oiled automatically and instantly under 100 pounds pressure. Saves both your time and money. One of the greatest features of convenience and economy ever presented to motorists.

Houdaille Shock Absorbers

These Houdailles are especially engineered by Nash to the new "400" with outboard mounting, new to the industry and exclusive to Nash. They are double-acting—softening the action of the springs both when they are depressed and on the rebound and giving you fullest riding ease.

Front and Rear Bumpers

These are the finest bumpers built, exceptionally beautiful and strong. They are integrally designed by Nash to harmonize perfectly with the new "400" Sedan body design. As regular equipment at no extra cost, they contribute to the remarkably low Nash price, delivered, in this city.

World's Easiest Driver Control

We challenge the world on this new "400" feature. Nowhere is there another car so marvelously easy to steer and turn and park, or with such effortless clutch action as the new Nash "400". Nash is far ahead of the industry in ease of driver control.

7-Bearing Crankshaft

This is the world's finest practice—expensive but worth it—because of finer performance than is possible with fewer bearings. Each connecting rod is given maximum support by big bearings on both sides. This is the modern type of engineering.

Refreshing Comfort

The deep, soft cushions, form-fitted to the body, the wide seats, the roominess of the Nash "400" interior, all help to bring you to the end of every ride refreshed beyond anything in your whole motor car experience. On the longest trip you rest as you ride.

Costly Car Interior Finish

Costly upholstery and luxurious craftsmanship distinguish the new Nash "400" interiors at once from competitive cars. You can see the difference the instant you open the door. Nash "400" interior finish is matched only by the very highest priced cars.

Launches Steel Barges.
The Dravo Contracting company
this week started work on the lower
arm of the coffer, opposite Kittan-
ing in the Allegheny river, to per-
mit work on Lock No. 7. Pile driving
continued in spite of the cold weather
and it is expected to have the coffer
completed this week. Extensive dredg-
ing will be done before the coffer is
unwatered.

The Dravo concern this week
launched three steel barges of the
sand and gravel type from its Neville
Island ways for the Ohio River Sand
company, Louisville. It is expected
two steel barges, all of the standard
Dravo size, will be launched this week
for the Whittiz Turner Construction
company of Baltimore for delivery to
the upper Tennessee river.

Steamer Sinks.
The steamer B. R. Davison of the
Penn Sand company sank at her land-
ing at Rochester, below Dam No. 5,
Tuesday night. The watchman and
cook escaped. Advantage will be ta-
ken of the low stage of water in or-
der to raise the boat before a rise
occurs.

The Nashville Bridge company,
Nashville, Tenn., this week laid the
keel for a twin screw 750-horse power

THREE PROBES OF PEN PLOT

Warden, Welfare Chief
And Cell Engineer
Act.

COLUMBUS, O., Feb. 21.—Three
investigations are under way today,
and another probe, which will prob-
ably be more extensive, is pending
into the escape of five convicts from
the Ohio state penitentiary here early
Tuesday morning.

Warden P. E. Thomas is conducting
a probe, and Welfare Director Hal
Griswold has a separate investigation
under way. J. B. Youngblood, con-
struction engineer of the cell block
from which the men sawed their way
to freedom, is also conducting an in-
vestigation as to what measures he
should take to make the new cell
block "escape proof."

Representative James A. Anderson,
of Stark county, introduced a reso-
lution before the lower house of the
state legislature yesterday to institute
a legislative investigation. The
resolution was sent to committee and
is expected to come up for passage
this week.

This investigation, if made, will
probably be of far-reaching results.

Warden Thomas was apparently an-
gered when he heard that the legis-
lators had "meddled." He said, how-
ever, he would welcome the probe,
as it would bring before the public the
conditions he has to contend with in
the lodging of more than 4,800 prison-
ers in the penal institution. The warden
said the prison was overcrowded
and that the legislative probe may
result in the betterment of conditions.

DR. J. B. GEORGE PAYS VISIT TO BILLY SUNDAY

Dentist is Four-day
Guest in Elyria
Meeting.

GREET PASTORS
Evangelist Prepares for
Campaign in Texas
City.

Dr. J. Bert George today sent letters to Billy Sunday, Homer Rode-

heaver and other members of the evangelistic party which held a six-week revival here late last fall in which he expressed his appreciation of the courtesy extended to him during his four-day visit to Elyria, last week where he attended seven services at the tabernacle.

It so happened that Mr. and Mrs. Sunday moved from their quarters in the hotel to the home of a Dr. Jackson, also a dentist, on the day that Dr. George reached Elyria. He was thus immediately placed by the evangelistic party in the room formerly occupied by the evangelist.

Situated some eight blocks from the tabernacle the hotel used by the evangelistic workers was visited daily by automobiles to take the party to and from the services. Dr. George, their guest during his visit, made the trips with them, and had a reserved seat on the platform by the side of Mrs. Sunday.

Eracts Corpus Christi Tabernacle. He found three former pastors from or near East Liverpool taking part in the campaign. There were the Rev. Dr. Edwin Kirby, formerly of the First Methodist Episcopal church here, the Rev. Mr. Brown, who at one

time was the pastor of the United Presbyterian church at Calcutta and the Rev. Mr. Mackey, formerly of Newell, W. Va. All of them greeted Dr. George cordially and renewed their acquaintanceship with him.

Dr. George found that Alfred Peterson, the advance man of the evangelist, had just returned from Corpus Christi church, Texas, where the next campaign of Mr. Sunday will begin one week from next Sunday. He had completed the building of the tabernacle there and reported much interest in the coming of the revival workers to that section of the country.

The week's delay incident to the opening of the campaign in Elyria will prevent additional rest for all of them. The start for their Southern objective will thus have to be made about the middle of next week from Winona, Ind., and the other places of their residences in order for them to be there in time for the Sunday morning opening.

Elyria Campaign is Success. One of the unique experiences that have come to the members of the party since going to Elyria was that of Robert Matthews, the pianist, who just a day or two before the arrival of Dr. George in the city, was permitted to hear his first born son, whom

HERBERT HOOVER, QUAKER, WILL "AFFIRM" SUPPORT OF CONSTITUTION

WASHINGTON, Feb. 21.—Although he has taken no one into his confidence, the understanding prevails in the capital that when Herbert Hoover takes the oath of office as president he will "affirm" rather than "swear" his intention of supporting the constitution.

Quakers don't "swear." They "affirm." Mr. Hoover is a Quaker. Authorities differ as to whether there has even been a president who didn't "swear" to perform his constitutional duties.

There never has been a Quaker president, but some records maintain that Franklin Pierce, the fourteenth president, used "affirm" in taking the oath in 1853 because of a deep-seated aversion to "swearing." Other records state that Pierce used "swear."

he had seen but for a day or two before rushing to Elyria following its birth in January, crying all the way from Mississippi. This is perhaps a crying record and was possible only when, in speaking to his wife at her home in that state, she brought the lusty infant to the telephone and permitted his father to hear his wailings across a distance measured by the breadth of several states.

"Billy Sunday is working with even more than his accustomed vigor," Dr. George declared. "At the Sunday night service that I attended he had even the ministers in tears. There was a long lull following the giving of the invitation during which Mr. Sunday asked 'Who will lead the way?' And it was a gray-haired man who had been standing all of the while with his back against the wall at the extreme rear of the large tabernacle who did so. The spectacle of the man stalking determinedly all the way down the sawdust trail to the platform moved the entire assemblage and others thronged to the front.

The meeting has had a tremendous effect on that section of northern Ohio in which Elyria is located.

People have been coming to the revival for miles around and there has been marked religious activity in adjacent church territory.

During Dr. George's stay in Elyria four East Liverpool girls, Misses Catherine McNutt, Edith Fox, Mary Walsh and Miss McCoy attended the revival for a few days. They also were cordially received by the members of the evangelistic party.

"East Liverpool," Dr. George said, "is remembered with interest by all of those who functioned in the revival here."

AMERICAN AUTOS DOMINATE WORLD

CHICAGO.—How American-made automobiles dominate the world was revealed in a survey made by the Chicago Motor club.

Last year, the club reported, only 520 motor vehicles were imported to this country, while 830,000 American cars were sold outside the United States.

SAMUEL E. KING DIES IN LISBON

LISBON, O., Feb. 21.—Samuel E. King, 74, died yesterday in his home, 215 East High street, after two weeks' illness.

Mr. King, who was born here, was formerly a member of the Lisbon police department, but had been employed for many years as a watchman by the National Brass and Copper company.

He leaves his widow, Mrs. Nan

King; two sons, Edward King, Springfield, Ark., and W. E. King, Lisbon, and a sister, Mrs. Elizabeth Burns, Lisbon.

Funeral services will be held in the home yesterday afternoon at 2 o'clock, in charge of the Rev. C. E. Lake, pastor of the Christian church. Burial will be made in Lisbon cemetery.

Because of complaints against the interference it was causing, broadcasting from the Eiffel Tower at Paris has been discontinued by the authorities.

All this Good in Every Spoonful!

YOU have heard how modern men are sadly lacking in things which can aid one's inner system. Make up this deficiency with syrup pepsin, and watch your appetite, your assimilation and

elimination improve 100% in a week! You needn't give up rich foods, nor go on a diet, for syrup pepsin is a liquid vegetable product that soon has stomach, liver, and bowels in condition to handle anything that's eaten—without distress and without fear of constipation. You don't have to purge your system with a powerful drug, but need only an occasional spoon of Dr. Caldwell's Syrup Pepsin to keep the whole digestion tract clean and sweet, and the bowels free from any accumulated waste. Children are healthier and happier, and elderly people have a far easier time where this ideal combination of laxative herbs and pure pepsin is fully appreciated.

Dr. Caldwell first used it back in 1875. Today, no druggist is ever without this famous prescription all put up and directions enclosed. A test of this remarkable preparation is easily made, and its merits quickly demonstrated. Try it and see if there is not an amazing difference in the way liver and bowels function—and in the way you feel!—Adv.

THE RECORD-BREAKING NEW NASH "400"

Of all the New Cars
at the Motor Show
Only the New NASH "400"
offers these
outstanding features
as standard equipment
... without extra cost ...

Twin-Ignition Motor

Far more power and speed with greater economy of gasoline than possible with single ignition. At every speed this new Nash Twin-Ignition motor delivers wonderful performance. Instant, alert get-away and surpassing smoothness through the full range of power and speed.

Bi-jur Central- ized Chassis Lubrication

Press a pedal and 21 points, including all spring shackles, are oiled automatically and instantly under 100 pounds pressure. Saves both your time and money. One of the greatest features of convenience and economy ever presented to motorists.

Houdaille Shock Absorbers

These Houdailles are especially engineered by Nash to the new "400" with outboard mounting, new to the industry and exclusive to Nash. They are double-acting—softening the action of the springs both when they are depressed and on the rebound and giving you fullest riding ease.

Front and Rear Bumpers

These are the finest bumpers built, exceptionally beautiful and strong. They are integrally designed by Nash to harmonize perfectly with the new "400" Sedan body design. As regular equipment at no extra cost, they contribute to the remarkably low Nash price, delivered, in this city.

World's Easiest Driver Control

We challenge the world on this new "400" feature. Nowhere is there another car so marvelously easy to steer and turn and park, or with such effortless clutch action as the new Nash "400". Nash is far ahead of the industry in ease of driver control.

7-Bearing Crankshaft

This is the world's finest practice—expensive but worth it—because of finer performance than is possible with fewer bearings. Each connecting rod is given maximum support by big bearings on both sides. This is the modern type of engineering.

Refreshing Comfort

The deep, soft cushions, form-fitted to the body, the wide seats, the roominess of the Nash "400" interior, all help to bring you to the end of every ride refreshed beyond anything in your whole motor car experience. On the longest trip you rest as you ride.

Costly Car Interior Finish

Costly upholstery and luxurious craftsmanship distinguish the new Nash "400" interiors at once from competitive cars. You can see the difference the instant you open the door. Nash "400" interior finish is matched only by the very highest-priced cars.

STEEL OUTPUT GAINS, TRADE SURVEY SHOWS

Advance in Prices Reflects Confidence, Says Iron Age.

WEEKLY SUMMARY Production Will Equal If Not Exceed That Of January.

PITTSBURGH, Feb. 21.—A reflection of confidence among the mills or possibly an effort to bolster up mill confidence is the interpretation of fresh advances in steel prices. The Iron Age makes today in its weekly summary of the iron and steel trade.

"Increases of \$1 a ton on bars, plates and shapes and \$2 a ton on cold finished bars, more general adoption of a \$2 a ton advance on common finishes of sheets, a readjustment of cold rolled strip extras and imminent upward revision of quotations on other products are features of the week," The Iron Age says.

Irregularities between market prices and the volume of business being booked are partly due to wide variations in the demand for the different commodities as well as disparities in the rate of activity in different districts, the summary points out.

Plates, shapes and bars, as well as sheets, especially galvanized and black are up, and skelp has shown an advance, but scrap shows further weakness in most markets. Steel production will probably equal if not exceed that of January, the summary says.

The president of Panama recently vetoed a bill for a 6 p. m. closing hour for business houses.

Motherhood

May be made a joy!

"Mother's Friend" is a comfort to expectant mothers. Externally applied, it relieves prenatal distress by relaxing tight tissues and muscles. Its daily use makes the skin soft and pliable.

"I am proud of Mother's Friend. It saved my life," writes Mrs. Thos. Sherosky, Leechburg, Pa. "My 9½ pound baby boy was born a few minutes before the doctor came, and I didn't know I had him."

Start using "Mother's Friend" tonight! It is sold by all drug stores.

BUCKLEY OFFICE RECORDS ARE O. K.

COLUMBUS, O., Feb. 21.—That former state treasurer Bert D. Buckley, who resigned on February 5, last, at the request of Governor Myers Y. Cooper, "has faithfully accounted for all public funds and securities of which he was made the official custodian by the laws of Ohio," is the assertion made in a report made public yesterday by State Auditor Joseph T. Tracy.

The report covered the examination of the treasurer, after Buckley's resignation, by State Examiners Dean C. Jones, Conn Baker and F. M. Hooping-garner, and Chief Accountant Ernest McMurray, all of the state auditor's office.

KEEP LOOKING YOUNG

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c, 30c and 60c.

Getting Up Nights Is Nature's Danger Signal

Rev. W. H. Mitchell, Jeffersonville, Ind. Says, "I feel I am doing real missionary work when I tell or write how my wife was relieved of a serious case of bladder irritation with Lithiated Buchu (Kaiser's formula). She had to get up 5 to 8 times each night. It acts on bladder as epsom salts do on bowels. Drives out foreign deposits and lessens excessive acidity. This relieves the irritation that causes getting up nights. The tablets cost 2c each at J. D. Holloway, druggist.—Adv.

The Public's Favorite

After Critics Made Comparisons at the Automobile Show, Oldsmobile Now Stands More Than Ever As the Favorite

OLDSMOBILE

PRODUCT OF GENERAL MOTORS

With New Lower Prices

Again Oldsmobile has been singled out as the favorite at the Auto Show—

—not because of any radical changes in the 1929 Oldsmobile, but for a more vital fundamental reason—

—because critical comparison with other cars in its field reveals an overwhelming margin of value in favor of Oldsmobile.

Not only have desirable improvements been added but its price has been considerably reduced!

Already distinctive in appearance, its smartness has been enhanced by new headlamps on chromium-plated mountings—by a new cadet-type visor—and by new, sparkling color combinations.

And even greater luxury its revealed inside the car—by deeper, softer seat-cushions—by new, more costly upholstery—and by the wonderful new Fisher adjustable front seat that may be instantly regulated to suit the driver's convenience.

HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific, which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.

That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And everybody, in almost every circle, sees the change. New beauty, new health, new vitality.

Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

CARNALITY HIT BY EVANGELIST

Eradicate Sin, Urges
Rev. Lawrence Reed,
Damascus.

The Rev. Lawrence Reed, of Damascus, O., was greeted by another large crowd last night in the revival in the Church of the Nazarene, when he spoke from the text: "Ye Are Yet Carnal."

He said in part: "A carnal Christian is but a babe in Christ. If ye be in Christ you are a new creature. This carnal Christian is a Christian but still has the carnal nature from which he must be cleansed if he is to continue as a Christian."

"The carnal Christian then is not a sinner for he has quit the sinning business. He is not a fully sanctified or holy Christian because he is yet carnal. In what state then is a carnal Christian? All committed sins have been forgiven. He stands justified in the sight of God. He has a title to heaven but is not yet fitted for heaven."

"He has still the seed of sin in his heart. The old man of sin has not

yet been crucified, the adamite nature, though suppressed for the present, is still in his heart. Do I mean to say that God does a half-way work when He converts a sinner? No, regeneration or conversion is a complete work, but the nature of sin in the human heart cannot be forgiven. It must be eradicated, destroyed, or cleansed away by the blood of Christ.

"Many try to overcome, or 'grow' carnality out of the heart, but you may as well try to grow weeds out of your garden. There is no way but the way of the cross for deliverance from the 'Old Man of sin.' Saul wanted to spare King Agag, a type of carnality, but God had said 'Utterly destroy the Amalekites,' so Samuel said 'Bring ye hither to me Agag' and Samuel, the Prophet, took a sword and 'hewed Agag to pieces.' Carnality must go the death route."

Don't Let a Cough or Cold Hang On-It's Dangerous Company

When nothing seems to do that lingering, bothersome cough any good just go to Carnahan's Drug Co. and get a bottle of Bronchiline Emulsion. Take it as directed and notice how easily it overcomes that persistent cough that has caused you many sleepless nights.

BISHOP'S SLAYER GETS LIFE TERM

CINCINNATI, O., Feb. 21.—Walter Moore, 24, is today confronted with the sad realization he must spend the remainder of his life behind the dreary walls of the Ohio penitentiary. Eight men and four women—jurors who heard his trial on a charge of slaying Rev. Joseph C. Hartzell, former Methodist bishop, found him guilty of first degree murder.

"But we do recommend mercy."

That part of the verdict was the one ray of sunshine for the youthful life-taker. It was a life-term mandatory, and saved Moore from the electric chair.

LIONS LEAVE FOR 17-CLUB CANTON DINNER

Inter-city Convention Tonight in Courtland Hotel.

400 WILL ATTEND

I. A. Hoffman, School Principal Speaks at Meet Here.

Attorney William S. Foulks, Dr. J. A. Fraser, Dr. C. A. Shaffer, D. J. Savelsberg, Kenneth Martin and P. E. North will represent East Liverpool Lions at an inter-city convention of 17 clubs in the ballroom of the Courtland hotel in Canton at 6:30 o'clock tonight. Four hundred guests from Ashland, Akron, Barberton, Bedford, Cleveland, Cuyahoga Falls, Dover, East Cleveland, New Philadelphia, Ravenna, Steubenville, Wadsworth, Warren, Wooster, Youngstown and Beaver Falls, Pa., are expected to attend.

Charles M. Newcomb, of the Cleveland Plain Dealer staff, will deliver the principal address on "The Psychology of Laughter." Newcomb is a former professor of psychology at Ohio Wesleyan university, Delaware, Trustees' Session.

Thomas W. Morgan, of Lorain, district governor for Ohio; Hon. S. Kern, of Columbus, past governor and now international director of Lions clubs; Glen N. Porter, of Youngstown, lieutenant governor, and Vernon Clapper, of New Philadelphia, lieutenant governor are listed among the outstanding guests.

Trustees of the various clubs will hold a business meeting to discuss matters of mutual concern to Lions of this district. Plans for the fourth coming Ohio state convention to be held in Youngstown, May 15 and 16, will be taken up.

To See "Romance of Power," I. A. Hoffman, principal of the Central school, addressed East Liverpool Lions last night on "Things That Should Interest Service Clubs" at the weekly dinner in the grill room of The Travelers' hotel.

J. F. Malone, commercial manager of the Ohio Power company, will show a motion picture, "The Romance of Power," at the meeting next Wednesday night.

Piles Go Quick
Without Salves or Cutting

Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonhardt found the remedy and called his prescription HEM-ROID. He tried it in 1000 cases with the marvelous record of success in 96 per cent, and then decided it should be sold by drug-gists everywhere under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from Mathews' Original Cut Rate today. It has given safe and lasting relief to thousands and will do the same for you, or costs you nothing.—Adv.

To a large audience the Rev. Paul Hudson, of Hartford, Conn., delivered a masterly discourse last night in the Pennsylvania Avenue Baptist church. He spoke on "Developments of the Christian Life."

Immediately after the service he went Midland, Pa., to spend the night with his brother, who is pastor of the First Baptist church there.

Rev. J. W. Whitfield, was unable to attend the service.

Preceding the sermon the choir of the church contributed a number of Jubilee songs in addition to the singing of hymns.

Evangelist E. J. Atkinson, of New Brighton, Pa., preached on "What Think Ye of Christ," last night in the revival in the Oakland Free Methodist church.

He said in part: "In this day of high steam, electricity, airplanes, high fliers and destructive war implements we are often asked the question about what will be the next line of invention. We say this is so wonderful and give it due consideration but in centering our minds on what

MICHELIN TIRES AND TUBES

It is our business to know about tires, and we are positive that the best tires made today are Michelins. Just consider these facts:

Fact 1 Records covering the experience of many thousands of motorists during the last two years show that more than 80 times out of 100 you get more mileage by changing to Michelins.

Fact 2 The increase in mileage which Michelins give is great; records covering millions of miles indicate Michelins go 36% farther. That means 4,000 or 5,000 miles extra for you.

Fact 3 You don't pay for this extra mileage. Unlike many other tire manufacturers, Michelin specializes in making one quality only—the

best. This policy has resulted not only in good tires but in better tires economically produced. On top of that, we keep our profits as low as possible, believing as we do in low prices and large sales. The net result is, we sell Michelins at the price of ordinary tires.

Fact 4 Don't overlook Michelin Ring-Shaped Tubes. Because of their superior shape and composition they outlast all others. And because they are compounded with anti-mony, they keep the casing as much as 20° cooler, thus increasing its life considerably.

Konjola Scores Quick and Complete Victory in Stubborn Case for Ohio Resident.

MR. ALBERT DILLEY.

"Despite the many splendid endorsements of Konjola, I certainly was not prepared for the huge surprise it gave me by restoring my health after years of suffering," said Mr. Albert Dilley, P. O. Box 42, Washington Court House, Ohio.

"For ten years I was the victim of a most distressing and stubborn case of indigestion. Once I was unable to work for three weeks and two days. When I did work it was under great disadvantage and with pain, for I was really too weak to be on the job. I became greatly discouraged, for when one has hunted for relief for ten years and found none, there seemed to be little hope of ever being better."

"In the four months following my use of Konjola, I gained thirty-three pounds. I have not missed a day's work since I started the treatment, and by the time I finished four bottles, my health was absolutely restored. I want to tell of this splendid success of Konjola so that others will know there is such a remedy within their reach. To me Konjola is a priceless medicine."

VANGUARD

A Highly Amusing Story of a Romance
Aboard a Millionaire's Yacht.

By Arnold Bennett

Yet the apparition from the stateroom was received in the lounge with melancholy and indifference. Harriet was no longer a queen. She was no longer exercising the supreme social function of her sex, nor demonstrating that she had a right to be alive and to be spoiled and flattered and gifted with costly gifts. She was merely someone who was trying on new clothes. All the waiting sirens showed by their demeanor that they were sick of the sight of clothes and would not care if they never saw another woman's frock again. Even the couple attendant on Harriet for this particular essayage shed their enthusiasm in a moment, while Harriet felt sadly that clothes do not after all amount to much in the mysterious equation of life. Indeed Harriet wilted and seemed to shrivel, as one who had suddenly lost friendships or prestige. She felt humiliated and resentful. The eyes of everybody seemed to be asking the eyes of everybody else: "What's the use of going on with this silly game any more?"

The explanation was that neither Lord Furber nor Mr. Sutherland happened to be in the lounge. They had deserted and left the garments in the lounge without a decent excuse. So also the Honorable Luke. The Honorable Luke, however, returned himself to the lounge after a brief interval. But his importance in the scheme of things was insufficient to produce any noticeable improvement in the lackadaisical attitude of the sirens. "Where is Lord Furber?" Harriet asked sharply.

"In the dining saloon, madam."

"And Mr. Sutherland?" Still more sharply.

"I think he's up in the wireless cabin, madam. Can I do anything?"

"No, thanks."

Harriet was now angry. She went out of the lounge onto the deck.

The Honorable Luke's glance following her, said: "Well, anyhow, empress, you did offer to kiss me and I declined. So it's no use you attempting to come the cinema star over me."

She ran up to the wireless cabin, the door of which was ajar. Mr. Sutherland was within, but alone. "What are you doing here?" she asked impetuously. "Oh," ejaculated Septimus, admiring, wonder struck, at the spectacle of her in the yachting costume.

Now, Harriet had by this time actually forgotten that she was wearing the yachting costume. But Septimus's responsible and the liquid gaze of his blue eyes reminded her of the fact, restored her sense of sovereignty, renewed the lost conviction that she had a mission to perform in life, and determined her to be ruthless in the exercise of power. And did all these things in the fraction of a second.

"I said, what are you doing here?" she repeated more harshly than before.

"I'm going to set off some wireless messages," Septimus apologetically replied.

"Why just now? You know I wanted you see these frocks?"

"And I do see one of them!" said Septimus with an impressive bland fervor.

"Yes. And I suppose you expect me to run after you with my frocks?"

"The truth is," said Septimus, very placatory and yet dignified. "Our friend suggested that I should do my wireless immediately. Difficult to ignore such a suggestion from one's host, you know, dear lady. Especially when one's host is in a—er—certain mood."

The Quarrel

"When I last saw you I thought you two were on the edge of having a quarrel."

"Not at all. I have never quarreled with anyone in my life."

"What do you know about Lallies?"

"Nothing."

"Nothing?"

"Well, nothing except the name, and the last balance sheet. You see it's a limited company and you know that part of my professional business is to keep an eye on limited companies. Nothing else."

"I don't believe you," said Harriet, deviating somewhat from maidenly politeness. "You're hiding something from me. And what's this about wirelessing? You can't wireless yourself. Where's the operator?"

"I don't know. Furber said he would be here. And he isn't here. I fear the organization of this yacht is not all that it might be."

"The organization of that dressmaker's display was not too bad," said Harriet. "But perhaps you think you could have done it better."

"Not at all."

"And you said last night that the dinner was not so badly organized either?"

"True. But did you notice the breakfast just now? The eggs, for instance! The service! And the service in my cabin really leaves a lot to be desired. It was so last night, and it's the same again this morning."

"Mrs. Bumpston is at the bottom of all this," said Harriet, suddenly meditatively, after a pause.

"I beg your pardon, sir," said Tunnickoff the operator, appearing in the doorway. But he spoke in a tone which signified: "You ought to beg mine." His nostrils were superbly disdainful.

"Lord Furber kindly told me that I might get some messages off with your assistance," Mr. Sutherland said.

"Won't they do a bit later, Sep? I want you downstairs now." Harriet murmured. And her demeanor magically altering, she presented Septimus with an exquisite smile so effective that his very spine melted like a candle in the warmth of the tropic sun.

"Certainly," said Septimus with eagerness.

Harriet looked through the wireless operator as though he had been transparent, and in triumph led away her captive, who completely ignored the wireless operator.

Put when the captor and the captive reached the lounge together the former loosed her hold of the latter, and with no word of excuse to him whisked into the dining saloon and banged the doors after her. And there was Lord Furber seated solitary at the vast oval table. The baron was staring gloomily, even glumly, at the polished surface of the table. He looked up at the invading Harriet, and then looked down again, taking no further notice of the yachting costume.

"This," said Harriet, dropping onto a chair exactly opposite the baron. "This will not do."

No reply.

"This will not do."

Jealousy.

No reply. Harriet proceeded:

"And to think that you are the great Lord Furber! This is the millionaire and the engineering genius and the grand general. Titan and panjandrum sitting here in front of me. Not to mention my host." She spoke cheerfully, zaiy, with the superior smile of a cat addressing a worm. "You put yourself to a tremendous lot of trouble, and expense—though I don't count that, with you—to get enough fal'als, as you call them, to fit out a whole beauty chorus. It isn't as if I wanted them. I didn't. I was frightfully happy in your fur coat. I was only having them to please you. And you only took the fur coat from me because you knew I simply loved wearing it. You bring all these poor little Italian creatures here, and you make me try on, and as soon as I've tried on one, you run off, and I have to look for you everywhere! And not only that—but tell Mr. Sutherland to make himself scarce, too. I wonder you didn't clear out the little Tunnickoff as well, while you were about it. What do you think I was trying those clothes on for? Myself? Did you imagine I'm one of the doll-women you're so fond of? You thought you'd impress me and everybody else by your display, and your power, and your will, and all the Aladdin-lamp business and so on. You only did it for hat. And then after you've seen only one dress on me—"

"You're repeatin' yourself," said Lord Furber to the table.

Miss Perkins rode over him imperturbably.

"And why did you do it? Because you were vexed. Because you were jealous. Because I hadn't asked you if you like the dress. Well, I did it on purpose, just to see how you'd behave, if you want to know. And see how you have behaved! I've told you before, you're spoiled and impossible. And so you are. You think because you are a millionaire and a personage you are entitled to behave as you choose and nobody must say anything on pain of being frowned at by the great panjandrum. And you choose to behave like a silly boy!"

CATARRH IS DANGEROUS, OFTEN WEAKENS THE WHOLE SYSTEM, AND LEADS TO LUNG TROUBLE

Should Be Treated at Once and Not Allowed to Make Progress.

World's Tonic Is Designed to Combat Catarrh Throughout the System and Gives Amazing Results.

When left alone Catarrh often spreads from the nasal passages to the throat and then to the windpipe, bronchial tubes and finally to the lungs themselves. This is one of the greatest dangers attending Catarrh because the victim is thus placed on the very threshold of consumption. Catarrh is very prevalent in this part of the country because of the climate. Medical men say three out of every five people suffer from Catarrh and its symptoms, which are dripping of a poisonous substance from the throat, discharges from the nose, weak, watery eyes, headache, huskiness and dryness of the throat and the like.

Victims of Catarrh should start fighting the disease as quickly as they realize they have it, otherwise, serious developments are almost sure to follow.

Many people highly praise World's Tonic for Catarrh. It is a systematic treatment and is made for this one disease. World's Tonic almost immediately relieves the distress in the nasal passages and throat and stops the spread of catarrh. At the same time, it combats Catarrh at its very source, within the system, and is designed to rid the system entirely of Catarrh.

World's Tonic, the systematic treatment that is doing so much good in East Liverpool and vicinity, is sold by Caravan's, also Brannan's at Wellsville and all other reliable druggists.—Adv. (231)

Had Eczema Very Badly on Face, Head, Limbs. Healed by Cuticura.

"When I was a baby I had eczema very badly. It broke out in sore eruptions on my face, head and limbs. Later it formed blisters that itched and burned, and was so severe that I could not sleep at night. The trouble lasted a long time.

"They used several preparations but did not get any results. They then tried Cuticura Soap and Ointment and after using three cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Miss Mattie M. Sales, 3140 Giles Ave., Chicago, Ill., Oct. 18, 1928.

Once in the clutches of RHEUMATISM
now the joy of the home

Why Rheumatism can't be rubbed out

THOSE muscular pains, commonly called rheumatism, are generally due to a "run-down" condition, with the number of red-blood-cells below the normal count.

S.S.S. aids the system in building up these red-blood-cells and in getting rid of the condition of which the rheumatism is but a symptom. The body becomes strong and disease-resistant, and the rheumatic pains go.

Pains in your muscles and joints make you miserable, less efficient, interfere with your working hours, ruin your sleep.

"I was very nervous; had hardly any appetite, and suffered with rheumatism. I tried many medicines, but S.S.S. is the one that did me the most good. I am now well, and feel like a new man."—William Osborne, 2406 Sloan Street, Flint, Mich.

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

All good Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

PILATE QUERY IS SUBJECT OF REV. S. E. WEST

"What Shall I Do With Christ?" He Asks.

THREE CONVERTED

Revival Services Held In Free Methodist Church.

No neutral position is possible on the part of any one regarding Jesus Christ, avowed the Rev. S. E. West, pastor, at the Free Methodist church revival, Avondale street, last night. "The question, 'What shall I do with Christ,' must be answered by all and the reply translated as it always is into the subsequent actions of those doing so spell their eternal standing," he said. "He must be accepted for what He says of Himself or denied as that the then populace shouted he was not."

Another good-sized audience heard the sermon which was followed by three supplicants at the altar. "This query of Pilate to the mob seeking the life of the Nazarene, 'What shall I do with Christ,' formed the text of the pastor and he announced will be discussed again tonight.

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Heals Eczema In 7 Days or Less

Or Your Money Back

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain **Moore's Emerald Oil** in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. Any druggist can supply you at any time.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with **Creomulsion**, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe

REPORTS 21,234 AUTOS IN COUNTY

COLUMBUS, O., Feb. 21.—Columbiana county has 21,234 automobiles, according to a statement issued today by Secretary of State Clarence Brown.

Of this number, 4,763 were registered from East Liverpool; 2,956 from Salem and 908 from Lisbon. The total revenue from the sale of license plates in the county, last year was \$143,232.26, which was divided between the county and the state.

The motor population of the state is 1,711,026. This is an increase of \$1,917 cars over the total number in 1928 and an increase of 202,727 cars over 1927. The total revenue from the sale of license plates in the state last year was \$1,543,889.64, an increase of \$1,943,778.44 over the previous 12 months.

No Neutral Position.

"Christ was in the hands of his enemies when Pilate asked this question but he was convinced the charges brought against him were insufficient for conviction," the Rev. Mr. West said. "Yet to carry the favor of the leaders of the Jews and those whom they had rallied against Him he asked this query hoping that they would agree to his release. He had to choose between the good will of the people and Christ."

"Public opinion was more to him than the Christ. He permitted Barabbas to be freed rather than the innocent personage before him. And the former was notoriously guilty of many crimes and misdemeanors."

"And now, many years after this event, it is impossible to maintain friendship with the world and still carry loyalty to Jesus Christ. Friendship with the world then and now is a barrier to Christ. As long as men and women love the world they can have no use for Christ. Christ is on one side and the world on the other. You must decide which side shall rule your life."

"Men and women coming to Christ do so prayerfully. It was thus with Saul on the Damascus road when it was shown him by the Lord that he was working against his best interests."

Cannot Sidestep Question.

"Pilate thought by washing his hands before the people he could play the part of an innocent man in the transaction which he realized was wrong. And this many times these days attempt likewise to do in their attitude towards Christ. But this is quite impossible for God knoweth what is in the heart. A full and complete reply as to what one will do with the Christ must be given. It can not be sidestepped any more than it was done by Pilate."

"Men kept from Him now in many instances because they fear what men will say regarding them. It was so with Pilate. He was afraid of losing his job. Similar fear or ones equally in keeping with it keep many in siding with the world as against Christ these days."

"Who confesses Christ him will Christ confess before the Father. We have all to face God alone. He who would save his life must lose it and he who loses it shall find it. He can not remain neutral. We, as must all, are to decide what we shall do with Jesus who is called Christ."

BIG SCENES MARK "SYNTHETIC SIN" ON STATE SCREEN

The old south, that was, with its courtly gallants and charming belles, is literally transported to the screen in "Uncle Tom's Cabin," the stupendous masterpiece production at the American theater.

One could almost inhale the sweet scene of magnolias and hear the soft voices of the dainties at the close of a long, cotton-picking day. The one word to describe this masterly picture is "epic." Certainly no other photoplay since the beginning of the industry has achieved the response, both as to emotions and realizations as has this one.

The great direction of Harry Polard is reflected in every foot of the picture. Not only are the players perfectly cast but the grouping, composition and lighting are astonishingly effective. The river scenes are marvels of beauty. The proud "La Belle Riviere" puffing around a bend of the Mississippi brings a thrill to all beholders.

Of drama there is a plenitude. The roles of Margarita Fischer as Eliza, George Siegmund as Simon Legree, James Lowe as Uncle Tom, Virginia Grey as Little Eva, Arthur Edmund Carew as George Harris are portrayed with an amazing realism and fidelity to the characters of the novel.

The comedy touches which are painted in with deft strokes of a masterly brush are capable handled by Mona Ray as Topsy, Lucien Littlefield as Lawyer Marks and Alleen Manning as Aunt Ophelia.

The big scenes are splendidly done. The death of Little Eva, Eliza crossing the ice, the classical handling of the auction and river scenes, the marvelous reproductions of southern life as exemplified in the Shelby, St. Clare and Legree plantations, all are beyond reproach.

Spain is actively developing its hydroelectric power.

A combination of comedy-experts conceived the humorous plot of Colleen Moore's newest picture, "Synthetic Sin," which opened today at the State theater.

Frederic and Fanny Halton, recognized among the outstanding playwrights of the day, created the original story from which Tom J. Geraghty prepared the scenario. The Hattons have justly earned their reputation as exceptional co-authors, such stage successes as "Upstairs and Down," "Lombardi, Ltd." and "The Great Lover" being among the score of plays they have written, with "The Auction Block," "Lovelorn" and "The Night Bird" numbered among their scenarios. In addition to their stage and screen writing, they have collaborated on numerous short stories and several novels, all of which have aided in carrying them to a conspicuous position among modern writers.

"Synthetic Sin" is said to overshadow all their other stories in humorous complications, it having enjoyed a successful run on Broadway as a play before John McCormick purchased it as a motion picture vehicle for Miss Moore. William A. Selter directed "Synthetic Sin," with a supporting cast made up of Antonio Moreno, Montagu Love, Gertrude Astor, Edythe Chapman and Kathryn McGuire.

Again?
A day that might have meant so much—and she has to be excused. What a pity there's a woman left who does not know of Midol! One or two tablets in time, and not a twinge of pain throughout the menstrual process. Or an end to such suffering at any time, five to seven minutes after Midol is taken. Yet this merciful medicine is non-narcotic. Its wonderful results are due to the fact it acts directly on the organs affected; so it's utterly harmless, and it is only common sense to use it. Midol comes in a clever little case of aluminum you can slip in the smallest purse. And the cost of this comfort is fifty cents.*

*Midol's comfort is not confined to any certain days or age. It relieves at any time of life. Its case is felt immediately in cases of nervous headache, backache, cramping, hot flashes and all febrile pain peculiar to women.

Because the experience and suggestions gained from a million Super-Six owners led to the 64 improvements now introduced, the new Hudson is to be known as the Greater Hudson.

It is to this vast army of experts that this invitation to examine and drive the car and place upon it their appraisal is made. So emphatically does the Greater Hudson answer their wishes that we leave to them the verdict of its beauty, appearance, performance and value.

No car has ever held greater prestige from the standpoint of value. No car has been regarded as being better on the road or having such a satisfactory motor. In the Greater Hudson you will find that in these as well as other particulars a higher standard is set. No group of owners is better qualified to judge values. None know so well what smoothness and reliability—easy driving and easy riding means. So what they say of the Greater Hudson will be authoritative and conclusive. It is their judgment that we now invite.
